PLANT CHERRIES
FOR SPRING BEAUTY
AND SUMMER FRUIT

New McClain Cherry

Often Bears Next Year After Planting

Large Size Fine Quality Low-growing

F82 We believe this amazing McClain cherry is the finest new variety introduced in many years. The fruit is large, a rich red color, and delicious flavor. It ripens about the same time as Montmorency. For eating fresh, for pies, sauce, preserves and freezing, it is unsurpassed. It bears very young, generally the very next year after planting. Moreover it bears regularly and very heavily. The fruit is easy to pick because the tree does not grow as tall as other cherries. Wherever it has been tried, the reports are enthusiastic, even in the south like Atlanta, Georgia where other cherries do not thrive. Will grow right in your lawn, giving you lovely flowers, attractive foliage and delicious, healthful fruit for many years. As our supply is limited, and we want as wide distribution as possible, please do not order more than six trees. POSTPAID.

3½ to 4½ feet, Each \$2.50, 2 for \$4.50

2½ to 3½ feet, Each \$2.15, 2 for \$3.95

This Spring 1946 Catalog

WILL HELP MAKE YOUR HOME MORE FRUITFUL, MORE BEAUTIFUL

Tuberous Begonias

When you see these beautiful flowers in bloom, you will wish you had ordered more. No other flower can equal them for exquisite beauty. They are widely used as pot plants for winter bloom indoors and for summer bloom outdoors. This is a superior strain, from Capitola, California, the finest to be had. Fully double, Camellia type blooms, larger than pictured, of perfect form and carried erect on strong stems. Selected bulbs, 3 to 4 inches around. With each order we send instructions for growing them outdoors and indoors. Your choice of 6 colors. POSTPAID.

Order Early—Much Nursery Stock Will Be Scarce This Spring

Nursery stock is produced largely by hand work. Skilled workers have been scarce for the past four years. Since it requires from two to four years to produce most nursery stock, many items will be scarce again this spring and also next.

Last year there was the greatest demand for Nursery Stock ever known. This Spring it may be as great—perhaps even greater.

We have made careful plans to handle your orders this season. We have listed in this catalog only the best and most popular varieties, leaving out those for which there is only a limited demand.

Extra Values for you

We have also listed fewer sizes of trees and roses. For example, our super-size fruit trees are no longer listed; we ship them with the next size. Our super-size roses are put with our selected 2-year No. 1 size roses.

By having fewer varieties and sizes, we can fill orders more quickly and efficiently and you get that much greater value through these savings.

Mail Your Order Early

Many customers were disappointed last year by having their late orders returned due to stocks having been exhausted. To save disappointment and to gain a year's growth, we urge you to order early. Your Nursery Stock will be shipped at the proper planting time.

On page 3 is a list of premiums you get for ordering early. Be sure to list the premiums you wish on your order so all can be sent in one shipment.

When you are through with your Spring Catalog, perhaps your neighbor would like to see it. Thank you.

INTER-STATE NURSERIES, Hamburg, Iowa

PLEASE HELP US CORRECT OUR MAILING LIST

If your name or address as shown on the catalog envelope is wrong, please write below BOTH the right and the wrong.

WRONG:

Name_____

Address_____

How to Order

In the comfort and privacy of your own home, you can look through this catalog and select Inter-State's Guaranteed Nursery Stock and Seeds.

1. Write your order for Nursery Stock and Bulbs on the order blank on the back of this page.
2. Write your order for Seeds on the order blank at the back of the catalog between pages 82 and 83.

If you run out of our order blanks you can use any sheet of paper, but be sure to put your orders for Seeds and orders for Nursery Stock on separate sheets of paper. You can mail both orders in the same envelope. This will help us both since our Seeds are handled in a separate department and are shipped at once while Nursery Stock is shipped at the proper planting time in your locality.

3. Write your full name and complete address on both orders.

In making out your orders please write or print very plainly, giving your full name and complete address, street or rural route. Also list your nearest express office if it is different from your post office as we sometimes ship by *pre-paid express* instead of parcel post unless you object.

4. Order all items by catalog number.

This helps us give you better service and helps avoid mistakes. List quantity, variety and size of items wanted.

5. Total amount on both orders and send us money order, draft or check.

If you send currency or cash, wrap it carefully and register your letter. A money order is a better way to send payment.

Sales Tax

Customers living in Iowa will add 2% to the amount of their order, which the Iowa Sales Tax Law requires us to collect.

INTER-STATE NURSERIES, Hamburg, Iowa

Date _____ 1946

Name _____
(Write Name and Address plainly. All members of one family please order under same name)

Street Number _____ R.F.D. _____ Box _____

Order early and
order enough!
GET THESE VALUABLE GIFTS

Free!

If you send us your order for
Nursery Stock EARLY, you
may select Free Premiums as
follows:

**On Nursery Orders of
\$5.00 to \$10.00,**
select any one of these six
premiums.

**On Nursery Orders of
\$10.00 to \$15.00,**
select two premiums, alike or
different.

**On Nursery Orders of
\$15.00 to \$20.00,**
select three premiums, alike or
different.

With each additional five dollars
of nursery orders, select one more
premium.

No. 1—1 Canada Red Rhubarb,
worth \$1.00.

No. 2—2 Philippine Lilies,
worth \$1.00.

No. 3—2 New Mums, our choice,
worth \$1.00 or more.

No. 4—3 Phlox, our choice,
worth \$1.00.

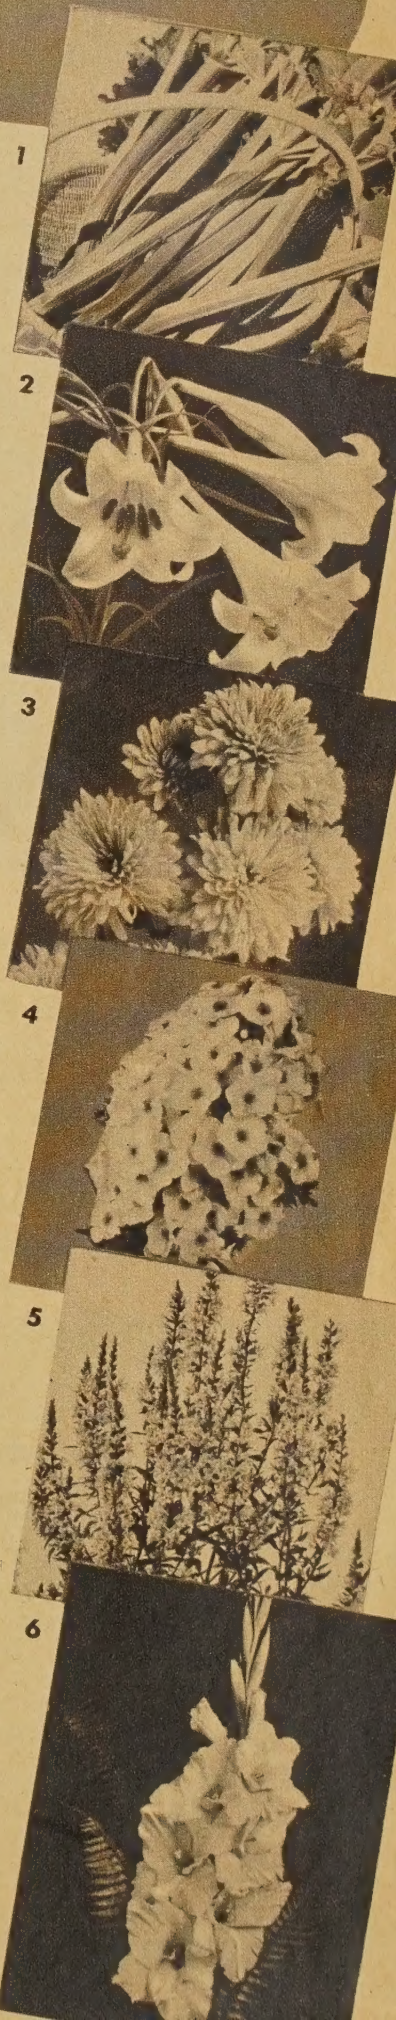

No. 5—2 Lythrum, worth \$1.00.

**No. 6—10 Gladiolus (including
1 Oregon Gold, worth
50c) worth \$1.00 or more.**

You can send your seed order
with your nursery order (please
put it on a separate sheet of
paper) but do not add the
amount of seed order to nursery
order when selecting premiums
because you get a separate pre-
mium with your seed order.

The premiums you select MUST
BE WRITTEN ON THE OR-
DER or none will be sent be-
cause we want to put all in the
one shipment. However, if you
send us another order later, then
you can include premiums you
overlooked on a previous order
of the same season.

IMPORTANT—If we run short
on some items, we reserve the
privilege of changing premiums,
sending you stock of equal or
greater value.

Inter-State's Guarantee

1. We guarantee our stock to be true to name. If it proves otherwise, we will replace free or refund the amount you paid us for it.

2. We guarantee our stock to be first quality and to reach you in good, live, growing condition. Examine it carefully upon arrival, and, if you are not entirely satisfied, return it at once and we will replace it free or refund your money.

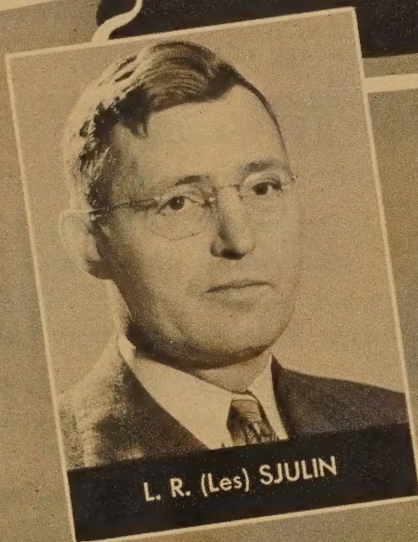

3. Our stock is carefully handled, and under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace at half price the following season, you to notify us not later than October 1st, 1946, accompanying your report with remittance of one-half original purchase price.

We want you to be satisfied. If anything is wrong, we want you to write us.

AND THE MEN BEHIND IT

CARL O. (Billy) SJULIN

L. R. (Les) SJULIN

D. L. O. (Dave) SJULIN

The Inter-State Nurseries are owned and operated by three brothers, Carl O., Leslie R., and David L. O. Sjulín (this is a Swedish name and is pronounced "Shoe-lin"). Practically born and raised in the nursery business, we have grown to be the Largest Direct-to-You Nurseries in America, with hundreds of thousands of customers. We have 1600 acres of the finest soil in the world, ideal for growing nursery stock.

HELPFUL PLANTING GUIDE *Free!*

With every nursery stock order, we send Free a 24-Page Planting Guide. It tells in a clear, simple way how to plant so that even if you have never done any planting, you can have success. It tells, also, how to prune, water, care for plants over winter, how far apart to plant, etc.

WE PAY POSTAGE

Please note that most items in this catalog are DELIVERED TO YOU, POSTPAID. Some Fruit and Shade Trees are too large to go by parcel post. They are shipped by express, you pay the express charges.

In some orders, there are trees which must go by express and also some stock which would go parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege, we include extra stock which has a greater value than the additional express charges amount to.

AMERICA'S LARGEST DIRECT-TO-YOU NURSERIES

Because we grow and sell direct-to-you more nursery stock than any other nursery, we can sell first quality stock at reasonable prices. Our soil is rated the finest in all America for growing nursery stock. It produces wonderful roots and fine tops. If you have never planted any of our seeds, order some this year. They are guaranteed to grow.

CENTRALLY LOCATED. We are located near the geographical center of the United States, with railroad facilities that enable us to ship promptly in all directions, North, South, East and West.

SALES TAX. The Iowa law requires us to collect a sales tax of 2% on all orders sent to us BY PEOPLE LIVING IN IOWA. Iowa customers will please add this amount to their orders. BUT PEOPLE NOT LIVING IN IOWA DO NOT SEND ANY SALES TAX.

IMPORTANT NOTICE

When ordering, please write down the Catalog Number shown by each variety and collection. If you order both Seeds and Nursery Stock, please be sure and PUT YOUR SEED ORDER ON A SEPARATE SHEET OF PAPER. Write your full name and address on both Seed and Nursery orders.

NURSERY STOCK IS SHIPPED AT PROPER PLANTING TIME

Nursery Stock and Seeds are not shipped together. Seeds are shipped at once. Nursery Stock is shipped at proper planting time. We are equipped so that we can start shipping to southern states early in the year. As the season advances, we keep shipping farther north until in May we are shipping to the most northern states.

THE NEW THOMAS Black Walnut

MOST REMARKABLE
OF ALL NUT TREES

N1 The Thomas is an improved grafted Black Walnut producing giant size nuts with kernels much larger, better flavor and much easier to get out. It is fast growing and bears very young. It is the greatest nut tree of the country. A mature tree will produce 15 to 40 bushels of very large nuts which sell for \$4.00 or more a bushel. They crack so that the meats come out in halves and quarters. A bushel of nuts cracks out 10 to 12 pounds of meats which sell readily for 75c to \$1.50 a pound. Perfectly hardy, grows almost everywhere but produces most heavily on rich ground with plenty of moisture. Plant 40 to 50 feet apart and 2 to 3 inches deeper than trees stood in the nursery.

- 4 to 5 feet, Not Postpaid **Each \$3.75**
- 3 to 4 feet, Not Postpaid **Each 3.25**
- 2 to 3 feet, Not Postpaid **Each 2.75**
- 18 to 24 inches, Postpaid **Each 2.50**

N2 Myers Black Walnut—This new variety is very highly recommended. Mr. Hirschi who is a practical, experienced horticulturist and one of the best qualified nut experts in America, considers it the best he has ever fruited. It bears young. The nuts are not as large as Thomas but the shell is thinner so that a bushel of Myers cracks out as much and perhaps a little more than the Thomas. The quality is especially rich. We have only 1000 Myers trees so please order only one tree. We want as many as possible to try it out and we want those who do, to write us and tell us how it performs.

- 4 to 5 feet, Not Postpaid **Each \$5.00**
- 3 to 4 feet, Not Postpaid **Each 4.00**

AMERICAN Hazelnut

N7 This makes a splendid, well-branched shrub 5 to 6 feet tall, and attractive enough to plant in your yard with the other shrubs. In the fall the foliage is handsome with scarlet and bronze tints. It can be found growing wild in a large part of the United States. Many of you have gathered the nuts from these wild bushes. It seems to thrive almost everywhere, most any kind of soil. The nuts are not as large as those grown in the northwest but they have a mighty fine flavor. Start bearing when only 2 to 3 feet tall. The native bushes are now almost gone in many localities. Plant a cluster of 3 or 4 and gather your own hazelnuts.

- 18 to 24 inches, Postpaid **Each 50c, 3 for \$1.25**

FOR A TASTE RHUBARB YOUR OWN

**DELICIOUS LATE INTO
A LIFETIME WITH NO**

CHIPMAN'S CANADA RED RHUBARB

A24 Chipman's Canada Red—A new rhubarb recently introduced from Canada that when once tried, is generally regarded as the best of all rhubarb. The stalks are large and completely red from bottom to top and even the flesh is red. In cooking, it does not lose this rich color. It certainly makes appetizing pies and sauce of matchless cherry-red color. It is the sweetest of all rhubarb so takes less sugar. For flavor it stands right at the top. The skin is so tender, you cook the entire stalk. It is extremely productive, you can pull the big stalks all spring and summer almost to fall. It is seedless. Plant early and you will get some rhubarb this year. Large number one roots. Postpaid.

Each \$1.00, 3 for \$2.50, 6 for \$4.50

**CHIPMAN'S
CANADA RED**

Chipman's Canada Red Rhubarb costs more and after you have tried it, you will agree that it is well worth it. Just three plants are enough for an average family unless you want to can or freeze a lot for winter. It lasts a lifetime.

CANADA RED SPECIAL

**2 Canada Red
1 MacDonald**

6A20 All 3 for \$2.15 Postpaid

Rhubarb is the earliest spring vegetable. It should be in every garden. Grows in most any kind of soil. Lasts a lifetime with little care or attention. Plant 3 to 4 feet apart and cover the crown with 2 inches of soil. A little manure around them once in a while will mean more and larger stalks. Also break off all seed stalks as soon as they appear.

RED MACDONALD RHUBARB

A16 Red MacDonald—The stalks are giant size, 2 or 3 times as large as common Rhubarb, tender and sweeter, requiring less sugar. Its bright red skin and white flesh makes the finest looking and best tasting rhubarb sauce and pies you ever ate. It stays tender far into the summer, so you can use it for months, early spring almost to fall. The stalks are 18 to 24 inches long, many half as thick as your wrist. The skin is so tender you do not peel it off, but cook it all. A tremendous producer, as fast as you pull up one stalk, another takes its place. It is practically seedless. A few plants will supply you with all you can use fresh and also plenty to can, cold pack or freeze for winter. We send you large, number one roots and if you plant real early you will get some Rhubarb this year. Postpaid.

6 for \$3.15, 3 for \$1.75, Each 65c

**RED
MacDONALD**

ALL-RED SPECIAL

**1 Chipman's Canada Red
1 Red MacDonald
1 Ruby**

**6A28 All 3 for \$1.85
POSTPAID**

TREAT EAT FRESH FROM GARDEN

THE SUMMER—LASTS CARE OR ATTENTION

A18 Skinner's—This variety does exceptionally well in Kansas and Oklahoma. We like it very much here at Hamburg. It is a tremendous grower and heavy producer of great big juicy stalks. If you have had trouble growing good Rhubarb, try this one. The skin is not as red as MacDonald, Ruby or Canada Red but the stalks are just as large or larger. Stays tender so you can use it for many weeks. Large Number One Roots. Postpaid.

3 for \$1.00, Each 40c

A17 Ruby Red—A new red rhubarb from Canada. The stalks are intensely red, even the flesh is red. Rhubarb sauce made from Ruby is as red as Strawberry sauce. Fine flavor. The skin is so tender it does not have to be peeled. Prolific yielder, can be used for months. The stalks are smaller than MacDonald or Canada Red, but there are more of them. Large Number One Roots. Postpaid.

3 for \$1.75, Each 65c

A19 Victoria—An old favorite for many years. Not as red, not as large, nor as productive as the others but it makes good sauce and pies. Grown from seed it can be sold cheaper as the others are grown from root divisions.

7 for \$1.00, 3 for 50c

TO ENJOY TENDER,
DELICIOUS
ASPARAGUS
AT ITS BEST GROW
IT YOURSELF

If you or your family like Asparagus, plant some this spring. Then in just a year or two, you can commence gathering your own. It will last a lifetime. For 6 to 8 weeks you can enjoy all you want and have some to freeze or cold pack for winter. It requires little care or attention and grows almost everywhere.

Our wonderful Loess soil produces the finest Asparagus plants we have ever seen. We believe our Jumbo plants are the very finest you can get. Planting them saves a year's time. Plant Asparagus 18 to 24 inches apart each way. Planting instructions sent with every order.

Plant Inter-State strawberries this spring-

INTER-STATE'S GENUINE
GIANT GEM
*Everbearing Strawberries
 will bear this Summer and Fall*

100 for \$4.25
 25 for \$1.25 50 for \$2.25
 200 for \$7.65 500 for \$15.95

A2 Giant Gem has become the most popular everbearing variety because it does so well almost everywhere that strawberries are grown. It is extremely productive. The berries are large, firm, bright red and good quality. They will bear THIS SUMMER, starting 60 to 90 days after planting and continue until freezing. Next year, you will have a big crop in the spring and fruit also in the summer and fall. Self-pollenizing. POSTPAID.

Do you know anything that tastes better than fresh, home-grown, sweet, luscious strawberries? Why pay such high prices for the fruit when it is so easy to grow them? In every garden there is room for at least a small patch. They bear quickly and produce high yields for the small space they take. Plant plenty so you have enough to eat fresh, to can, preserve, and for freezing. For home use set plants 24 inches apart each way. For a larger bed, set 18 to 24 inches apart in the row and rows 3½ feet apart.

6A13 **All Season Special**
 25 Giant Gem
 10 Streamliner
 25 Senator Dunlap
 25 Blakemore
 all 85 POSTPAID FOR

25 for 65c 50 for \$1.10 **100 for \$1.95**
 200 for \$3.35 500 for 5.95 1000 for \$10.95

A4 For preserving, canning and freezing, Blakemore is especially fine because it holds its red color and shape so well. For "company," you put Blakemore on the table. It ripens a few days before Senator Dunlap and is equally dependable, producing large crop every year. It stands up well during drought. The berries are large, firm, an attractive red and good quality. Self-pollenizing. POSTPAID.

SENATOR DUNLAP

25 for 75c 50 for \$1.25 **100 for \$2.25**
 200 for \$3.85 500 for 6.75 1000 for \$11.95

A3 We have sold countless millions of this grand strawberry. It is the most widely planted kind in the middle west. Hundreds of thousands, yes, millions of families, every summer, enjoy the fruit. It ripens in midseason and is simply delicious to eat, can, preserve and freeze. It is so dependable, seems like it never fails to produce a good crop. Self-pollenizing. POSTPAID.

to eat fresh, can, preserve and for freezing

NEW STREAMLINER Everbearing Strawberry

100 for \$10.25
50 for \$5.45 25 for \$2.95 10 for \$1.50

A7 A few thousand were sold last year but this is the first time it can be offered generally. Even then there are probably only 2½ to 3 million plants in all America and we have about 1 million of these. Every report we have seen is extremely favorable—"finest ever"—"greatest of all"—"largest size, finest flavor"—"most productive" everbearing strawberry ever introduced. Evermore and Giant Gem are both very good and we recommend that you plant some of all three of these everbearing strawberries.

Streamliner berries are very large, pictured actual size, a rich red color and we consider the quality the finest of all strawberries. When you get in a patch, you keep eating and eating, you just cannot get enough of them. It will bear THIS SUMMER, starting 60 to 90 days after planting and you will have berries right up to heavy frosts. Next year you will have fruit spring, summer and fall. We like all strawberries, but this one is our favorite. It has everything, fine flavor, large size, good color, heavy bearer, Self-pollenizing. POSTPAID.

A6 This was originated by the Fruit Experimental Station of Minnesota. It proved so successful that it was first sold as Minnesota 1166 (their official trial number) before it had time to be named. Now it has been named Evermore. The berries are large and a red color so bright they glisten almost as though varnished. Many think they are the sweetest of all Everbearers. It will bear This Summer, starting 60 to 90 days after planting and continue until freezing. Next year it will produce a heavy spring crop and then besides you will get fruit during the summer and fall. It is such a vigorous grower that in rich soils it makes a lot of new plants. You will get larger, better and actually more fruit if your bed is not too crowded. It is a good plan to pinch off the runners after 8 to 12 new plants have been made. Self-pollenizing. POSTPAID.

New Ambrosia STRAWBERRIES

100 for \$3.75

25 for \$1.25 50 for \$2.15

A1 **Ambrosia** is one of the finest Strawberries we have ever tasted. It has that delicious, sweet, real strawberry flavor. The sparkling bright red berries are very large and firm, fine for canning, preserves and freezing because they hold their shape. The fruit is easy to pick and clean because it comes on tall stems, strong enough to hold the fruit up off the ground. A strong vigorous plant that is extremely productive. Not an everbearer but ripens over a long period, commencing right after Dunlap. The early and the medium-season varieties are gone when Ambrosia starts ripening. My, how delicious are those sweet, great big, bright red berries. A big bowl full on the table will disappear in a hurry. When your neighbors taste and see them, they will want some too. We believe it is the best late strawberry we have ever seen. Self-pollenizing. POSTPAID.

INTER-STATE'S

Fruit Special

You get the entire collection for the price of a couple of bushels of fruit and these fruit trees will produce many bushels of delicious, home-grown, full-flavored fruit, year after year for many years.

Some will start bearing a year or two after planting.

Berries that should be in every garden

use them for jellies, jams, sauces and pies

Do you remember when you used to go to the berry patch with your mother or grandmother and help pick a few quarts of berries—first one kind, then another? And how good they tasted? And what wonderful fresh pies and sauce they would make? And the Jellies and Jams for hot breakfast biscuits? Fresh, canned or frozen berries of all kinds are becoming more scarce every year, and higher in price. You save when growing your own. On this and the following pages we list the best varieties for you to grow. A few dollars spent for plants this spring will return your money many fold in years to come.

CURRANTS

How often have you wished that you had some currants for making jelly? You know that they make the finest looking and best tasting jelly. Dietitians tell us that they are very healthful, tone up the system. Plant some this spring, enough for your own use and any surplus is easily sold at a good price. They are so easy to grow, thrive in ordinary garden soil and do not take much room. Plant them 3 to 4 feet apart. Our big 2-year number one plants will give you a few berries next year.

A60 New Red Lake—This new variety is rapidly replacing the older kinds. We think that it is the most productive and the sweetest, best quality of all currants. The berries are very large, they are pictured actual size. The clusters are long and filled out right to the end. The color is a bright glossy red and makes the most beautiful and finest flavored jelly. Even after fully ripe, they will hang to the bush and not drop off as others do. Please read notice below. Postpaid.

2-year No. 1 Plants, 3 for \$1.75, Each 65c

IMPORTANT NOTICE

On account of federal regulations we ship Currants and Gooseberries only to the following states—**Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Missouri, Nebraska, North Dakota, Oklahoma and South Dakota.**

If you do not live in these States, please do not order Currants or Gooseberries.

(\$5.35 Value)**

We have made this low price so thousands can have and enjoy the fruit and vegetables from this fine special. These are our newest and best varieties. Plant early and you will get a taste of rhubarb and berries this season. Each year thereafter you will get more and more. You know how scarce and high raspberry fruit is, 30c to 50c for a small pint box. Not much room is needed to plant this Special.

GOOSEBERRIES

A62 Champion—This is a very dependable, regular and heavy bearer of the finest quality. The berries are medium size, handsome pale green and creamy-yellow when fully ripe. Many people think gooseberries are sour. That is simply because they are picked green. When fully ripe, they are sweet and delicious. Champion berries hang on the under side of the branches, making them easy to pick. Our big plants will produce a few berries next year. They thrive in any ordinary garden soil. Plant them 3 to 4 feet apart. Please read notice above as we ship Gooseberries into certain states only. Postpaid.

2-Year No. 1 Plants 3 for \$1.85, Each 70c

INTERSTATE'S SENSATIONAL *Thornless Boysenberry*

IMMENSE SIZE • DELICIOUS FLAVOR • HEAVY BEARER • HARDY

A30 Thornless Boysenberry—Pictured below. A strong grower and good producer. We have seen berries fully 2 inches long. You will be astonished at the amount of fruit a few plants will produce. The fruit ripens over a period of almost 2 months. Eat them fresh for weeks, use them for pies, sauce, preserves and fruit juice. Just like the original Boysenberry but absolutely Thornless. When you taste fully ripe, home-grown Thornless Boysenberries you will agree that they are simply fine. You just cannot describe their sweet, yet zippy delicious flavor. They are almost seedless and a very deep maroon, almost black color when ripe. Plant 8 to 10 feet apart each way. In cold sections it requires some winter protection. Postpaid.

6 for \$1.75

12 for \$2.95 Each 35c

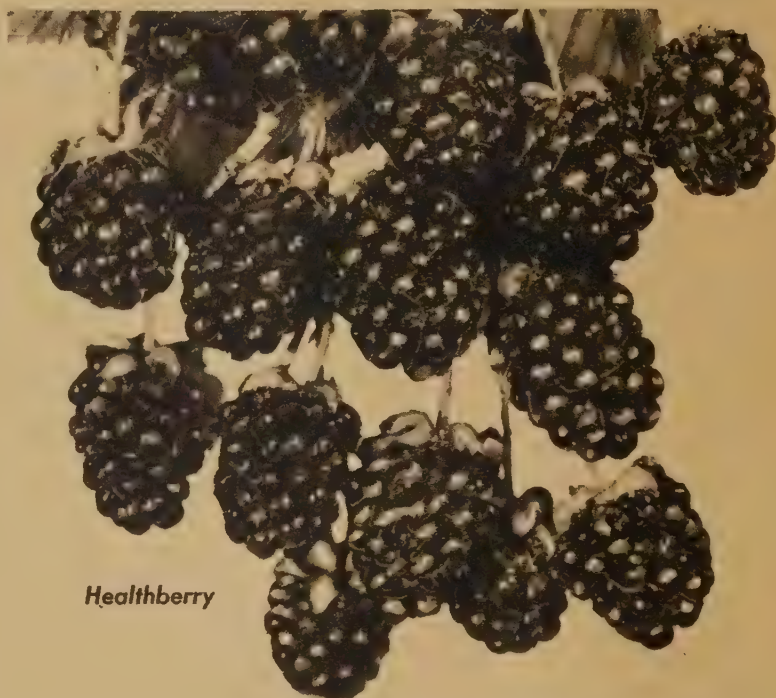

**Extra Heavy 2-year Plants

A31 Original Boysenberry—Just like the Thornless Boysenberry, except this, the original Boysenberry, has thorns. Postpaid.

6 for \$1.00

12 for \$1.75 Each 25c

A27 Healthberry—Also known as Hirschiberry and Nanticoke. For several years when we visited with Mr. Hirschi, the eminent horticulturist of Oklahoma, he was always enthusiastic about a Berry growing in his field. Right during the hottest part of the

Healthberry

summer, the temperature above 100, this new Berry was producing heavily while all other kinds were drying up. The fruit is not large but it is simply delicious and almost seedless. When ripe it is a shiny jet black. Makes a large plant 6 to 8 feet across. The fruit ripens over a long period. There will be blossoms, green fruit and ripe fruit on the plant at the same time. For Oklahoma, Arkansas, southern Kansas and Southern Missouri, Texas and other southern states, we believe this will prove a great fruit. It is the most productive plant we know. It is very thorny. Postpaid.

6 for \$1.85

3 for \$1.00 Each 40c

NO BERRY PATCH IS COMPLETE

WITHOUT

BLACKBERRIES

When fully ripened on the bush, few berries are as sweet and delicious as Blackberries. Moreover, they grow most any place, even in very poor soil. Plant them in a corner of your yard and they will take care of themselves and bear every year. The fruit can be used in so many different ways—pies, sauce, cobbles, fruit juice. We send you best grade number one plants.

A37 Alfred—Ripens early but bears a long time. Produces an enormous crop of first-quality fruit. Berries are mammoth in size. Color is jet black; flavor sweet and delicious, nearly coreless and seedless. Very hardy. Heavy bearer.

A38 Eldorado—Late. Our most popular Blackberry. The sparkling jet-black berries are large, sweet, delicious and almost coreless. Ripens over a long period and is generally the last berry of the season. Hardy, vigorous and a heavy, regular bearer.

BLUEBERRIES

A90 Native Blueberries—You can now raise your own Blueberries. These are Native Blueberry plants which will grow in almost any ordinary soil. Some Peat Moss (see page 36) mixed in the soil, will make them do still better. The berries are not large, but they have a delicious flavor. They grow 2 to 3 feet tall and make an attractive bush. The leaves color beautifully in the fall. Will grow in the sun, but prefer a spot that is shaded in the afternoon. For cross pollenization, plant in a cluster, 2 to 3 feet apart.

12 to 18 inch plants,

3 for \$1.75 Postpaid

A91 Tall Growing Blueberries—These are the newer varieties of cultivated Blueberries. They grow taller than the native and require acid soil. You can easily make your soil acid by mixing in Peat Moss (see page 36). The berries are large, often half inch and more in diameter and fine quality. Fine for eating fresh, pies and ideal for freezing. The bushes themselves are attractive with white flowers in the spring and waxy green foliage which colors red in the fall. For cross pollinization, plant in clusters, 4 to 6 feet apart. We send you one each of Jersey, Rancocas and Rubel varieties. They will start bearing a year or two after planting.

12 to 15 inch plants,

3 for \$4.65 Postpaid

Nothing is so delicious as Raspberries
fresh from your own garden

HERE ARE RASPBERRIES AT THEIR BEST

RED RASPBERRIES

There is a delightful flavor in Red Raspberries not found in any other fruit. If you have never grown them you have a treat coming. For pies, shortcakes, sauce, jam, freezing and fruit juice, they are delicious. You know how expensive and difficult it is to buy red raspberry fruit. Set out some plants this spring. Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart. They do well in any ordinary garden soil. Very hardy, they do best in the northern states. Generally not satisfactory in the south.

A45 Giant Latham—Very popular red raspberry. Fruit is large, bright red and delicious, eaten fresh, in sauce, jam, pies or shortcakes. Vigorous grower and bears heavy crops. We send you extra large, 2-year plants which will start bearing this summer. Postpaid.

Cumberland

Sodus

A46 Sodus is the heaviest bearer of all raspberries we have ever fruited. It is a cross between black and red raspberries. The fruit is firm and very large, many being an inch in diameter. The color is a purple-red. The plants are very vigorous, healthy, hardy and extremely productive. Especially fine for sauce, jams and freezing. We recommend it highly, especially for Missouri, Kansas, southern Illinois and southern Iowa. Postpaid.

BLACK RASPBERRIES

Everybody likes home-grown Black Raspberries. They ripen between strawberries and blackberries, a little before red raspberries. Plant them 3 to 4 feet apart in the row; the rows 6 to 7 feet apart. We send you the best grade number one plants.

A53 Bristol—This new variety is rapidly gaining in popularity as the best mid-season blackcap, both for home and commercial planting. A vigorous grower that produces tremendous crops. The berries are large, jet black, firm, sweet, almost seedless and an unsurpassed flavor. A hardy, healthy grower, does well over a very wide territory, doing well even in sections of the south like Oklahoma.

6 For	12 For	25 For	100 For
Postpaid \$1.25	\$2.25	\$4.15	\$14.25

A51 Cumberland—For many years this has been the most popular black raspberry. A vigorous grower that produces enormous crops. The berries are large, jet black, firm, sweet, almost seedless and have a flavor that can't be beat.

Morrison THE NEW GIANT BLACK RASPBERRY

3 for 70c 6 for \$1.25 12 for \$2.35
25 for \$4.25 50 for 7.95 100 for 14.75

A50 Morrison Black Raspberry is a new variety that has three very distinct points of superiority.

- 1—The berries are immense size.
- 2—Very fine flavor, almost seedless.
- 3—The plants are healthy, vigorous growers and produce tremendous crops.

It is also drought resistant. During a dry summer in several sections where Morrison was grown, it matured full crops of perfect berries when other varieties almost failed. It ripens a little later than Cumberland. The berries are immense size, glossy black, so attractive that they sell on sight. The fruit is almost seedless, is firm, very sweet, juicy and most delicious flavor. Extra fine for eating fresh and for sauce, jams and pies. Plant some Morrison this spring, for home or commercial use. When it starts fruiting, you will wish you had planted more.

Postpaid.

THE NEW DOUBLE CROP RED RASPBERRY
THAT BEARS BOTH SPRING AND FALL

3 for 85c 6 for \$1.50 12 for \$2.75
25 for \$5.15 50 for 9.45 100 for 16.95

A44 Indian Summer is a wonderful new red raspberry that bears two crops each season, a heavy crop on the old canes at the usual time in summer and another crop in the fall on the new canes. The berries are large, an attractive red color,

fine quality. Delicious eaten fresh with sugar and cream. Good for sauce and makes the finest red raspberry jam and preserves you ever tasted. The plants are hardy, healthy and very productive. Easy to grow, require but little care. We send you full instructions. Red Raspberry fruit is expensive to buy. Grow some in your own garden. Twelve plants will give you lots of berries and 25 will supply an average family for table use and canning. Plant 3 to 4 feet apart. We send you big 2 year plants which WILL BEAR THIS SEASON. **Postpaid.**

1 6-in-1 Apple
1 New McClain Cherry
(See front cover)
Our Largest Size Trees

Both for **\$4.75**
Not Postpaid

F20 This 6-in-1 Apple Tree has six different kinds of apples, all on one tree. They are six of our best, most popular kinds, giving you fruit from early summer well into the winter.

Yellow Transparent, for summer.

Wealthy, for fall.

Yellow Delicious, for late fall.

Solid Red Delicious, for early winter.

Bright Red Jonathan, for the holidays.

Winesap, for winter.

Yellow Transparent and Yellow Delicious start bearing young, followed by Wealthy and soon all are bearing, all on the same tree. This is the one tree for those who want several kinds of apples, but do not have much ground available. With its flowers, rich green foliage and fruit, it is attractive enough to plant in your front yard.

PICK APPLES OFF THIS ONE TREE FROM SUMMER UNTIL LATE FALL

A "Grown-to-Order" Apple Tree for the Home Owner with Limited Space.

Apricots

ARE VERY DELICIOUS WHEN
HOME-GROWN, TREE-RIPENED

Ripening right after the cherries and before the early peaches, Apricots are one of the most delicious fruits, especially when picked fully ripe from your own trees. They are easy to grow and also make a handsome shade tree for lawn planting. For wonderful sauce and preserves, few fruits equal Apricots. Plant 20 feet apart.

F23 Perfection—This great new Apricot is pictured to the right in natural color and actual size. The fruit is large, beautiful and delicious. It ripens evenly and is a good keeper. The flesh is firm so that even when picked tree-ripe it can be shipped. Hardy, vigorous grower and heavy bearer.

4 to 5 feet, Not Postpaid..... **Each \$2.00**
3 to 4 feet, Postpaid..... **Each 1.75**

F24 Sansin—Introduced by Prof. N. E. Hansen of the South Dakota Experimental Station. Very hardy and drought resistant. It is adapted for the cold sections like northern Iowa, Minnesota and the Dakotas. Medium size golden-orange fruit.

4 to 5 feet, Not Postpaid..... **Each \$1.85**
3 to 4 feet, Postpaid..... **Each 1.60**

F26 Superb—This fine Apricot originated in Kansas and has been largely planted throughout the Middle West. The tree is hardy and very productive. Fruit is medium large, orange-yellow, flesh firm, high quality. Excellent for eating, cooking, canning, pies.

Famous Inter-State **CHERRIES** BEAR YOUNG AND BEAR EVERY YEAR

You can plant Cherries right in your lawn. The flowers are lovely in the spring, the foliage and tree itself are attractive and then in the early summer you have the healthful, delicious fruit. Cherries are our surest-to-bear tree fruit and they commence bearing very young. Plant them 15 to 20 feet apart.

F79 Early Richmond (May Cherry)—This is the popular early pie cherry of the nation. The fruit is bright red, juicy and delicious. Tree is a strong grower, bears heavily every year and starts bearing young.

F81 Gilbert Montmorency—For many years the Montmorency has been the most popular of all Cherries. This is a special strain from a single tree, the best of many thousands of Montmorency trees, in the great cherry district at Sturgeon Bay, Wisconsin. Ripens about ten days after Early Richmond. The red fruit is large, firm, fine flavor, the best of all Cherries for canning. The tree is a rather short grower so the fruit can be easily picked.

Plant Summer, Fall and Winter Apples, then you can have fresh apples, almost the year 'round.

SUMMER APPLES

F31 Anoka—A new apple originated by Prof. N. E. Hansen of the South Dakota Experiment Station. It is the youngest bearing apple we know. In fact, it sometimes bears in the nursery row and generally always the next year after being planted. Fruit is yellow streaked red. Ripens in August but can be used a month earlier.

F32 Beacon—This new apple originated at the Minnesota Fruit Experiment Station. The fruit is large, a solid bright red of very fine quality. It ripens in August but can be used weeks before. It is very hardy and extremely productive. Fine for eating and wonderful for pies, sauce, etc.

F44 Duchess—The popular summer apple. This is an improved strain with almost solid red color.

F35 Early Red Bird—This fine apple ripens a week before Yellow Transparent. It is the best real early red apple we know. The fruit is large, bright red, good quality for both eating and cooking. Hardy and a heavy bearer.

F33 Red June—The old-fashioned early red apple everybody likes. Delicious flavor.

F37 Yellow Transparent—The favorite early yellow apple. Ripens in July. Bears young, heavily and every year. Fruit is medium size, tender, juicy. Fine flavor for eating and cooking.

FALL APPLES

F34 Maiden Blush—An old favorite. Yellow with blush, mild flavor, large size. Ripens just before Wealthy.

F42 Wealthy—By far the most popular fall apple. It ripens in September but can be used weeks earlier. Fruit is large, red striped with tender, juicy flesh of fine quality. Very hardy. Bears young and heavily.

CRAB APPLES

F71 Whitney—While this is listed among the Crab Apples, you really can eat it fresh just like an apple. It is not tart. The fruit is only medium size, red striped, fine quality. Makes wonderful apple butter and jelly. Bears young and heavily.

F70—Dolgo—See page 41.

T1—Hopa—See page 40.

FARM HOME COLLECTION

Nine of our most popular varieties, giving you fresh apples almost the year 'round, starting in early summer with Early Red Bird and ending late in winter with Winesap.

Winesap

WINTER APPLES

F48 Grimes Golden—For many, many years this has been a very popular yellow apple. The fruit is large and highest quality. A good regular bearer.

F51 Jonathan—This is our most popular apple. Almost everybody knows it and likes it. A fine bright red apple of highest quality with crisp, yet tender flesh. Juicy and full of snap.

F52 Jonathan, New Bright Red—This is exactly like the apple above but it colors a couple of weeks or so earlier and has a little richer color. It is one of America's greatest apples.

F53 McIntosh, Solid Red—This large red apple is especially popular in the east, in Wisconsin and also in sections of other states. The flesh is snow-white with extremely high quality.

F56 Red Delicious—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

F60 Solid Red Delicious—Considered by many to be the finest of all red apples. It bears younger, keeps longer and the fruit colors up several weeks earlier than the common Red Delicious. The fruit is large, solid red and has a delicious flavor, unequalled by any other apple.

F61 Stayman Red—For eating in January and February no apple is better than this. The fruit is very large, a fine red color, good for both eating and cooking. A heavy bearer. This is a rather new apple, not so well-known, but it should be widely planted.

F36 Sweet Delicious—Nearly everybody likes a sweet apple but they are hard to get as so very few people grow them. This is a good one. Large, attractive, red fruit with a true sweet aromatic flavor. Good for eating, baking and making sweet pickles. Every family orchard should have one of these.

F64 Winesap—The most popular of all the long keeping winter apples. This is an improved strain of the old favorite. It has better color, larger size and will keep right through winter into spring. Everybody knows what fine quality Winesap is. Good to eat and for cooking.

SOLID RED DELICIOUS,
America's Favorite

F66 Yellow Delicious—This is now the most popular yellow apple in all America. It bears young and heavily, the fruit is large, juicy and no apple has a finer flavor. Some people who cannot digest other apples, eat this without any trouble. It is ready for eating in late fall.

F67 York Imperial—A large red apple, a little lop-sided but keeps all winter. A heavy bearer and good quality.

The peaches are listed in their order of ripening. Mayflower ripens here in early July—Elberta the last of August. Peaches need but little room, easy to grow. Our Iowa-grown, budded trees are hardy and bear young. Plant them 15 to 20 feet apart.

F12 Mayflower—First to ripen yet almost frost-proof as it blossoms so late. Red all over, good quality, good size. Semi-cling.

F14 Red Haven—This new variety is rapidly becoming the leading real early yellow peach. The fruit is large, almost a solid red like a Jonathan apple. The yellow flesh is firm, sweetly delicious, high quality. Free-stone. A hardy, vigorous grower and very productive.

F5 Champion—Free-stone. Large creamy-white with red cheek. Flesh is white, juicy, sweet and highest quality. A heavy, regular bearer. Very hardy. Excepting Sungold and Polly, this is probably the hardiest peach we grow.

F9 Hale Haven—Free-stone. This fine new peach is rapidly overtaking Elberta. A heavy producer of large, yellow peaches of high quality. Hardy.

F6 Early Elberta—Free-stone. Yellow with blush. Fruit is large, yellow flesh, firm, juicy, delicious. Hardy.

F10 J. H. Hale—Free-stone. Very large, golden yellow, flushed red with fuzzless skin. Flesh is yellow, solid, tender, very high quality. On the market it always brings a higher price. Plant with other varieties for pollinization to increase yield.

F7 Elberta—This grand peach fills millions of fruit jars every year.

F13 Elberta Cling—Ripens about one week after Elberta. This is a fine, delicious, high quality, yellow, firm, clingstone peach.

Sungold

HARDY YELLOW PEACH

Sold Only by Inter-State Nurseries

Very Large, Free-Stone, High Quality, Attractive

F1 The fruit of Sungold is very large, perfect free-stone, beautifully blushed. The flesh is firm, golden yellow, full of juice and the richest, sweetest flavor. Exceptionally fine quality. Very fine for canning. A commercial peach because it colors early and is a fine shipper. Ripens several days before Elberta. A heavy, regular bearer. The tree is well-branched, stocky and short, making it easy to pick the fruit. We could fill many pages with letters of praise about Sungold. Many of them show that it is definitely a hardier Peach. Tests at the Iowa Experimental Station also prove this. Sungold is a superior peach because of its Size, Beautiful Color, High Quality, Big Production and Hardiness. Self-pollinating, it produces more fruit. It lives and bears where Elberta dies and is far hardier than J. H. Hale.

Polly

FINEST WHITE PEACH

INTER-STATE'S ORIGINAL STRAIN

Hardy, Delicious, Free-Stone, Heavy Bearer

F2 The fruit is large, blushed, free-stone, ripens just before Elberta. The flesh is white, juicy but firm, the richest, most delicious flavor. All who have tasted it agree that POLLY IS THE FINEST FLAVORED PEACH THEY EVER ATE. When canned it stays firm and makes the most luscious peach sauce and preserves. Polly is not a good shipper but is best for home use and local markets. It bears young and is a heavy, regular bearer. Polly was introduced by us in the spring of 1934. It was originated by the Iowa Experiment Station. Thoroughly tested for many years, standing cold of 15 to 20 below zero. Polly is not a peach just for the North. It is a great peach for other sections as well. The fruit has such a wonderful flavor and is produced abundantly.

Pears

**DELICIOUS — EASY TO GROW — DO WELL PLANTED
IN SOD — RIGHT IN YOUR OWN YARD!**

Pears grow in any ordinary soil, even in sod, right in your yard. Plant 20 feet apart. Two trees, alike or different varieties, planted near each other so they can cross-pollinize, will both produce more heavily than if planted alone. To tell when Pears are ready to pick, place the palm of your hand under a Pear, raise it gently and if the stem snaps off easily from the limb, they are ready to pick. Then put them in a cool, dark place to ripen and you will have Pears of the highest quality.

F90 Bartlett—Our most popular summer Pear. Fruit is large, yellow with blush, juicy, sweet, high quality.

F93 Bierschmidt—A new summer Pear ripening a few days after Bartlett. Originating in Northern Iowa, it is harder than Bartlett. Good bearer. Highest quality. Blight resistant.

F92 Kieffer—The most widely planted winter Pear. A healthy, hardy and vigorous grower which bears young, heavily and regularly. The fruit is large and fills countless jars every season. Pick the fruit when it starts to color and let it ripen in a cool, dark place. Then it is delicious. Blight resistant.

F95 Patten—Originating in Iowa, this is a very hardy Pear which can be planted in cold sections like northern Iowa, Minnesota etc. Ripens in August. The fruit is large, yellow with blush, juicy, sweet, luscious flavor. Good bearer. Very blight resistant.

F91 Douglas—A fall Pear that originated in Kansas. Starts bearing very young and bears heavily every year, even when other Pears fail. Fruit is large, yellow with blush. Considered almost blight proof. Does especially well in Oklahoma.

F96 Seckel—Called the Sugar Pear because of its sweet, delicious flavor. Fruit is not large but the highest quality. Ripens in late summer. Bears young and heavily. Blight resistant.

Cope's SEEDLESS Pear

THE PEAR THAT HAS NO SEEDS, NO CORE

It's New
Seedless
Coreless
Attractive
Large Size
Fine Flavor
Productive
Vigorous
Hardy

F88 Cope's New Seedless Pear—A New Fruit Sensation. A Pear That Has No Seeds and No Core. In addition, it has everything else that you could ask for in a pear; great producer, excellent quality, size, beauty, vigor and hardiness. The fruit is large, a beautiful golden-yellow with a blush. The flesh is tender and sweet, juicy and delicious. Fine to eat fresh and ideal for canning as it has no seeds, no core.

The "Coreless" and "Seedless" features alone will appeal to those who eat them fresh or can them.

Bears Young, Does Not Blight

The original tree began bearing when 3 years old, and at 5 years of age it produced 3 bushels of perfect fruit. The trees in the nursery rows sometimes bear fruit. Other Pears right next to Cope's Seedless have blighted but it has never shown any signs of blight. Its early bearing qualities and resistance to blight place this variety among the leading Pears.

A Delicious Summer Pear

It ripens about 10 days after Bartlett and ripens evenly without any softening at the center. It is a self-pollenizer but will produce more fruit if two Cope's trees are planted near each other. If there are other varieties of Pears close, so they cross-pollinize, then Cope's may have a few small seeds.

3 to 4 feet, Postpaid.....	1.50	7.00	13.25

F103 Green Gage—The sweetest eating and canning plum, it is just full of sweet, sugary flavor. Large greenish-yellow fruit, freely produced. Free-stone. Ripens in September. It is not suited to extremely cold sections like northern Iowa. These trees do not grow as tall as other varieties.

F104 New Pipestone—A new Plum from Minnesota. The fruit is immense size, the largest plum we have ever grown. It has a very attractive color, red with a golden blush. The flesh is yellow, juicy and excellent quality. Fine for eating and cooking. Bears very young and heavily, ripening in August. Very hardy.

F105 New Red Coat—This also comes from Minnesota and is one of our best plums for canning. It is perfectly free-stone, the stone falling right out when you cut the fruit in half. The fruit is large, prune-shaped, a bright red color, good quality especially fine for canning. A healthy vigorous grower that bears young and every year. Ripens in August. Very hardy.

F106 New Stanley—A new prune-type plum from New York that is rapidly becoming the most popular of all plums. Large, dark blue, prune-shaped fruits. The yellow flesh is firm, sweet and delicious flavor. Exceptionally fine both for eating fresh and canning. A very heavy and regular bearer. Ripens in early September. Free-stone. It is hardy up to central Iowa. These trees will not be as tall as other varieties.

PIPESTONE

INTER-STATE'S PLUM CLUSTER

Here are five outstanding varieties that will give you plums for many weeks. Some will start bearing second year after planting.

1 New Damson **1 Green Gage**
1 New Red Coat **1 New Pipestone**
1 New Stanley

3 to 4 Ft. Trees

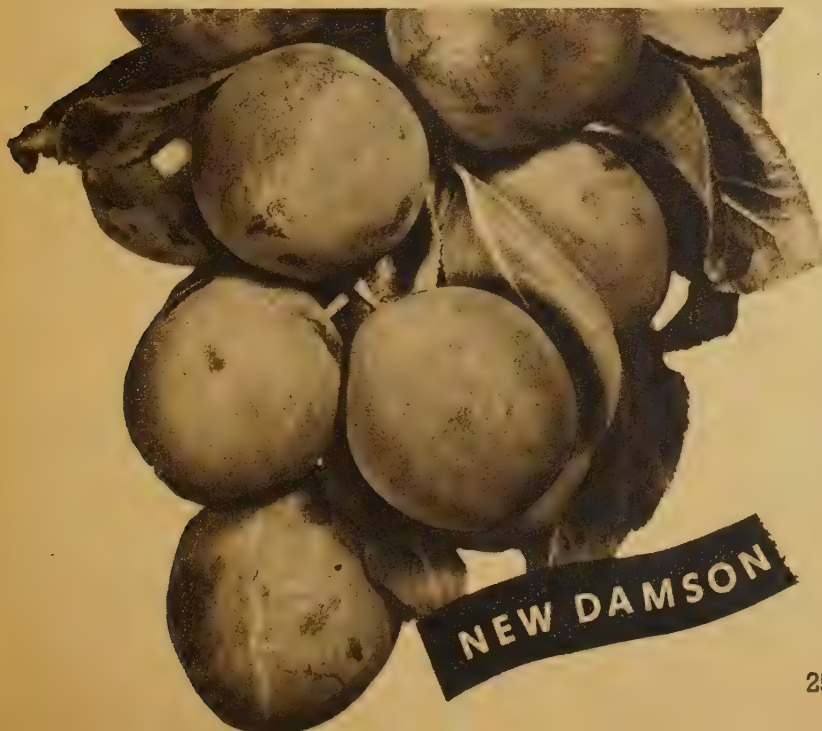

6F101 All 5 for \$6.35 Postpaid

Free—With each Plum Cluster, either size, we will include Free 1 Wisconsin No. 25 Plum Tree.

F107 Superior—This fine plum should be widely planted. The fruit is large, attractive red color and a rich sweet flavor. It bears very heavily, every year. Ripens in early August. Very hardy. Fine for eating and canning. A good pollinizer for other plums.

F108 Toka—Originated by Prof. N. E. Hansen, the famous plant genius from South Dakota, this is undoubtedly the richest flavored of all plums—a sweet, somewhat spicy and tangy flavor that is unequalled. The fruit is quite large, a beautiful apricot color with very firm, yellow flesh. Perfect free-stone. Fine for eating and canning. Ripens in August. Very hardy. It is also a good pollinizer for other plums.

F109 New Wisconsin No. 25—A new plum from Wisconsin. Extremely hardy and a good producer of good-sized red plums. It is especially valuable as a pollinizer for other plums. It makes them bear better.

Inter-State's Flowering Shrubs

MAKE YOUR HOUSE A HOME, HAVE BLOOMS, SPRING TO FROST

WHEN your yard is nicely planted, how proud you are of it. Also, it creates a good impression on all who pass by. Once planted, shrubs require very little care and bloom year after year. A few dollars spent this spring will bring pleasure, pride and beauty to your home. ALL SHRUBS ARE SHIPPED TRIMMED READY FOR PLANTING.

\$6 Barberry, Green Leaf (Thunberg's, Japanese)—Ideal for border and low foundation planting. Makes a low, dense, rounded bush 3 feet tall and just as wide. Grows in sun or partial shade. The foliage colors a beautiful bronzy-red in the fall, with bright red berries, which hang on all winter. Postpaid.

12 to 18 inches..... **Each 40c, 3 for \$1.00**
18 to 24 inches..... **Each 50c, 3 for 1.25**

GOLDEN BELL, Forsythia

\$44 Golden Bell, (Forsythia Spectabilis)—This is the best Golden Bell. The first shrub to bloom in the spring, its bright yellow flowers light up the entire yard. Grows 5 to 6 feet tall and succeeds everywhere. The foliage remains a beautiful green all summer. Attractive green bark in winter. Thrives in sun or part shade. Postpaid.

12 to 18 inches..... **Each 40c, 3 for \$1.00**

2 to 3 feet..... **Each 65c, 3 for 1.65**

EUONYMUS *Burning Bush*

S32 Euonymus (Alatus Compactus)—This is not a new shrub yet it is so rare that few people have ever seen it. There is no shrub which will draw more attention. Has yellow flowers in May–June followed by red fruits. In the fall the leaves turn such a brilliant color, coppery-crimson tinged rose, that this shrub will be the center of attention. It is far more attractive and colorful than pictured here. It has an unusual corky bark. Thrives in partial shade or full sun. Is perfectly hardy, makes a compact, bushy plant 4 to 5 feet tall and just as wide. It is not particular as to soil, growing over a very wide territory. A shrub that is ornamental and attracts attention spring, summer, fall and winter. Postpaid.

18 to 24 inches, **Each \$1.50**

12 to 18 inches, **Each 1.25**

Euonymus, Burning Bush

BLUE HYDRANGEA

S55 This variety is the hardiest we know. It blooms from new wood as well as old. The flower heads are large and last for weeks. In acid soil, the blooms are blue as pictured at the left. In ordinary soil, the flowers are pink. If you want blue flowers then you can make your soil acid by mixing quite a little Peat with it. See page 36 for Peat. In northern states give it some winter protection just like roses. The plant grows 2 to 3 feet tall and just as wide. It prefers partial shade and will grow in full shade. Whether blue or pink the flowers are wonderful.

Each \$1.50, Postpaid

Azalea Mollis

S3 This is a selected strain with larger flowers of brilliant colors, vivid orange, flame, salmon and gold that completely cover the bush in May and June. Grows 3 to 4 feet tall and just as wide. Thrives in sun or partial shade and will stand 10 below zero without injury. A mulch of Peat Moss or leaves is beneficial. In shrub borders, in foundation plantings, it adds a touch of color no other shrub can give.

Fragrant, Colorful French Lilacs

PLANT EARLY THIS SPRING—WILL BLOOM NEXT SPRING

S64 Bleautre—Large symmetrical panicles of deep blue.

S61 Charles X—blooms profusely every year, wine-red.

S67 Ludwig Spaeth—Most popular of all named Lilacs, a rich purple.

S68 M. C. Perier—Free-blooming, rich creamy white.

S69 Michel Buchner—Lovely, dark lilac-colored flowers. Profuse bloomer.

S74 Victor Lemoine—An outstanding variety with immense tresses of orchid-pink.

Until you have them blooming in your own yard you cannot realize the beauty of French Lilacs. They bloom very young, generally the next year after planting. Each passing year adds to their beauty and they last for generations. Many people think that these Lilacs are the finest of all shrubs. They do not grow very tall, 6 to 8 feet. Their fragrance fills the air. Plant Lilacs as early as you possibly can. All Lilacs POST-PAID.

Crape Myrtle

BLOOMS MIDSUMMER TO FROST

Crape Myrtle, the south's most beautiful shrub, can now be grown much farther north. We have secured a strain which is hardier. In northern states, grow it just like Everblooming Roses, giving winter protection by mounding up dirt before cold weather comes. It blooms on new growth so it does not matter if the old top is entirely killed. The flowers have such lovely, clear colors with a soft crepe-like texture. We have priced them reasonably so all can enjoy this wonderful shrub. **THEY WILL BLOOM THIS SUMMER.**

Use Inter-State Vines to soften harsh lines

Vines create beauty, softening harsh, barren lines. The expense is small and they last a lifetime. Take a good look around your place and see what vines you need. For walls, porch, pergola, trellis, to cover banks or cave, to screen unattractive views, to trail over a fence. Vines often provide just the finishing touch you need.

Inter-State's Clematis

Clematis are the most colorful and many people think them the most beautiful of all flowering vines. On a porch, pergola, trellis or fence, they are truly a gorgeous sight, so many lovely flowers of purple, white and red, all summer. A location shaded from the hot afternoon sun is ideal. We send you fine 2 year plants that will bloom this summer. POSTPAID.

V2 Henryi—A chastely pure white flower of unrivaled charm. Immense size, often 7 inches across, and produced all summer. **Each \$1.00.**

V3 Jackmani—When you see this plant, covered with hundreds of purple blooms, you will know why it is called the Queen of all Vines. The flowers are large, 4 to 6 inches across and produced freely all summer. The most colorful and attractive of all. **Each \$1.00.**

V4 Mme. Ed. Andre—Its striking, velvety red flowers are produced profusely. **Each \$1.00.**

Sierra Madre Wisteria

V21 Pictured to the left is a portion of the world famous Wisteria at Sierra Madre, near Los Angeles. Grown for centuries and under ideal conditions it has become the largest vine in the world. It covers so much room that conventions can be held under it. In the nursery, the plants which have been propagated from this vine show an average normal growth so we judge future growth will be about like other Wisterias. The flowers are a lovely lilac color and fragrant. The cuttings used in propagation were taken from the original vine with the owner's permission and are the genuine variety. These vines will make beautiful, living souvenirs of this famous Wisteria.

Each \$1.50. Postpaid

--- add charm and beauty to your home!

Do you have an unsightly garage, a barren wall or fence? These Vines can turn them into spots of charm and beauty.

Silver Lace VINE

V17 The Fastest Growing Hardy Vine. The picture shows how lovely they are. A hot, sunny pergola or porch can be made cool and inviting. Often grows 10 to 12 feet the very first season. From mid-summer to late fall it is completely covered with thousands of small white flowers. The foliage is glossy green. Easy to grow, it is ideal for porch, pergola, trailing over a fence, stumps and banks. Our heavy field-grown number one plants will give you shade and flowers this summer.

Each 75c, 2 for \$1.25 Postpaid

Wisteria

PINK WISTERIA

V14 A new and still rare Wisteria with lovely pink flowers, becoming more beautiful each year. Our grafted plants generally bloom second year after planting. Perfectly hardy, easy to grow, blooms in late spring. For a charming color effect, plant both the Pink and Purple Wisterias. Two year old plants.

2 for \$1.65, Each 90c. Postpaid.

PURPLE WISTERIA

V15 A magnificent vine, lasting for generations. Our plants are grafted which induces early blooming. Sometimes they even bloom the same year planted and almost always the next year. Large clusters of fragrant flowers in May-June. The color is lilac-purple, far superior to the lavender color of the common Wisteria. Two year old plants.

2 for \$1.25, Each 75c. Postpaid.

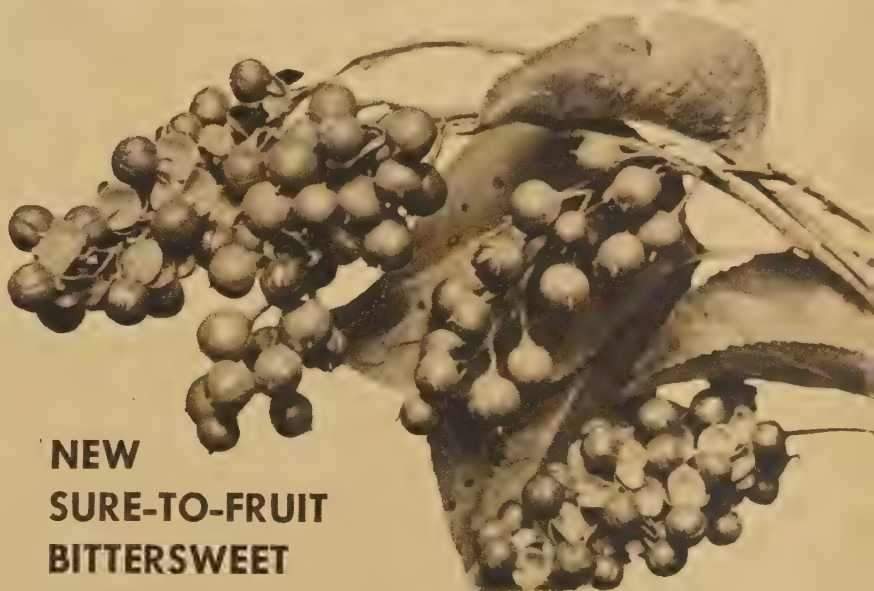

6V16 1 Pink and 1 Purple Wisteria for **\$1.35** Postpaid.

VINE SPECIAL

NEW

SURE-TO-FRUIT

BITTERSWEET

V19 The ordinary Bittersweet often fails to fruit. Here is one that always fruits. Even one vine planted alone will bear fruit but if you plant 2 or 3 close together so they can cross-pollenize, then they will all bear a great deal more. Grows rapidly in any kind of soil, in sun or partial shade. Blooms in June followed by the clusters of attractive orange-red berries. Makes fine late fall and winter bouquets.

2 for \$1.50, Each 85c Postpaid

PLANT INTER-STATE *Hardy Hedges...*

• ADD BEAUTY • PRIVACY AND PROTECTION TO YOUR HOME •

HARDY RUSSIAN PRIVET

H2 Hardy Russian Privet (Amoor River North)—The most popular hardy hedge. It makes a permanent hedge, lasting for generations. Not only adds beauty, it also protects your yard especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick, dense hedge, without thorns, right down to the ground. Requires trimming only twice during the summer. But if you will trim it 3 or 4 times, it will become even more dense and bushy. The leaves are a rich, dark green and hang on until very late in the fall. This is the hardiest Privet, standing 15 below zero without injury. Plant 1 foot apart.

TRUEHEDGE COLUMBERRY

YOU GET IMMEDIATE HEDGE EFFECT, RIGHT FROM THE DAY PLANTED. NARROW, UPRIGHT, REQUIRES LITTLE TRIMMING.

H5 Truehedge Columnberry (Patent No. 110)—One of the greatest introductions of the past decade. As a hedging it is unique in that it grows upright, therefore will make a hedge almost without any trimming. It is especially valuable in places where a narrow hedge is needed. Grows very dense, even the size as small as 12 to 15 inches cannot be seen through. The leaves are a deep glossy green and cover the plant completely right down to the ground. In the fall, it colors a rich orange-red and the red berries hang on all winter. The plant is hardy and succeeds everywhere excepting gulf states. It is rustproof. Almost right from the day you plant it, you get immediate hedge effect. Allowed to grow naturally, it makes an unsurpassed semi-formal hedge 3 to 4 feet tall. However it can be trimmed and clipped to any desired height, for a formal garden. In the north it is very desirable because it can be used like Boxwood, for a Colonial effect. If you want immediate effect, plant 6 to 9 inches apart, depending on the size plant you buy. Otherwise plant 9 to 12 inches apart.

A 3-year old Truehedge

BRIDAL WREATH

H3 Bridal Wreath (*Spirea Van Houtte*)— This photograph shows the beauty of Bridal Wreath, America's most popular and widely planted untrimmed flowering hedge. Millions of small white blooms cover the gracefully arching branches, every spring, without fail. Requires no special care and lasts a lifetime. Perfectly hardy, grows everywhere, in full sun or partial shade. You see it all over America and everywhere it is attractive and thriving. Makes a marvelous natural hedge or screen 5 to 6 feet tall. Plant 2 to 3 feet apart.

See Page 49.

H4 Green Leaf Barberry— Makes an excellent compact, rounded, low-growing hedge, 2 to 3 feet tall and just as wide, that never has to be trimmed. If desired, it can easily be trimmed to a lower height and width. The foliage turns orange-scarlet in the fall and red berries hang on all winter. Grows in sun or partial shade. Has small thorns. Rust-proof. Succeeds everywhere except the gulf states. We send you extra fine, larger plants that will give quicker results. Cost more and well worth more. Pictured on page 27 with Hydrangea. Plant 1 foot apart.

CHINESE ELM

H1 This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 3 to 10 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above ground. Economical in price because grown from seed. Plant 8 inches apart.

DWARF BLUEHEDGE

(*SALIX PURPUREA NANA*)

H10 This wonderful new hedge is very beautiful with silvery blue-green feathery foliage. Thrives everywhere, even into Canada, in dry soil or wet, in sun or part shade. If untrimmed, makes a dense, extremely bushy, finely branched hedge, scarcely two feet tall and just as wide. Can be very easily trimmed to a lower height and width. Grows wherever other hedges live and also in difficult places where others will not thrive.

K15 DOGZOFF

This is guaranteed to keep dogs and other animals away from places they are not wanted. Harmless to humans, non-poisonous, non-inflammable. Easy to use, simple instructions on every can. One can usually lasts a season.

I CAN FOR 69c

POSTPAID

PEAT MOSS

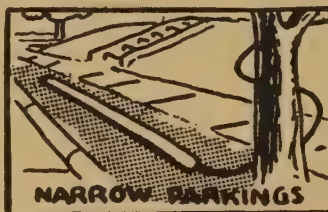

K7 Large Bag,

50 to 60 Pounds, Each \$1.75

You pay the express or freight charges. Order early so it can be shipped by freight as freight is cheaper, but takes longer. We have 2 kinds of Peat Moss. One is Acid for using with Azaleas, Blueberries, Blue Hydrangea and other acid-loving plants. The other type is Neutral. This is used with Roses, Shrubs, Perennials, Lawns and general use. Peat Moss is a very fine soil conditioner. It mellows heavy soils and helps bind sandy soils. It is a pure source of humus, needed by most soils. It is weed-free and odorless and helps the soil to hold moisture and retain plant food. Use $\frac{1}{4}$ Peat Moss mixed with the soil when planting and you will get better results, as it hastens root development.

6

FRIENDS OF THE GARDENER

FORCE'S MOLE KILLER

You simply put the pellets in the runways. The moles like them and eat them and die. That is all there is to it. Keep a supply on hand to use when the mole's runways appear. Guaranteed to work or your money back. Postpaid.

K4 75 Pellets for 50c.

K5 185 Pellets for \$1.00.

GENUINE HASTINGS SOIL-SOAKER

An ideal way to water because the water seeps through the entire length of the porous canvas and wets the ground thoroughly without waste and without wetting the flowers or foliage. Is flexible so you can place it right where you want it. You simply put it on the end of your garden hose. We have tried many sprinklers and this is the best we have ever seen or tried.

RA-PID-GRO

The Guaranteed Liquid Plant Food

This is a highly concentrated Plant Food, very easy to use. Just mix with water, one pound to 22 gallons. Used when planting, it makes the stock start quicker and do better. Then use it every 2 or 3 weeks, especially early in the season. You will be greatly pleased at the results. Perennials, Roses, Shrubs, Trees, Berry Plants, etc., will do so much better. When fertilizing, take away some of the dirt from around the stock, making a hollow around it. Then the liquid can get down to the roots much better. After this liquid has soaked down, water thoroughly, then fill up the hollow with the dirt.

For lawns, we recommend using the Special Nozzle. It costs only \$1.50. You put it on your hose in place of an ordinary nozzle. This Special Nozzle automatically measures out the correct amount of Ra-Pid-Gro, mixing it right with the water. It is a fast, efficient and economical way to keep your lawn green, healthy and vigorous.

Our stock is grown in the richest soils in America. It is healthy and vigorous and will give you the best results if planted in proper soil. But unfortunately most soils are now deficient in some elements. Even a very minor element lacking, may make a big difference in growth. Ra-Pid-Gro contains all these elements. That is why we urge especially you who know your soil is not the best, to use it. We guarantee it to please you. Then we know our stock will do so much better and you will get more joy and pride from your plantings. See page 49 for more information about Ra-Pid-Gro.

SHADE TREES FOR BEAUTY AND COMFORT

CHINESE ELM

America's Most Popular Shade Tree

T20 Because of its extremely rapid growth, the Chinese Elm has become popular. Under ordinary conditions, it grows 5 feet a year. In just a few years, it makes excellent shade. It is very valuable for those sections of America where most other trees will not live or thrive, where it is hot and dry, even in alkali. It seems to thrive even in the poorest soil. But in those sections where Maples, Oaks and American Elm are grown, we advise planting the Chinese Elm only as a temporary tree for quick shade. There are hundreds of thousands of such homes, which would be more attractive and more comfortable if some of these quick-growing Chinese Elms were planted.

A 5 to 6 ft. Tree, 7 Years after Planting

A WINDBREAK IN JUST 5 YEARS

A windbreak around your home and farm buildings makes living more comfortable both summer and winter. It breaks up the dust storms and blistering hot winds and the biting cold winds and drifting snows. It will take less fuel to heat your home. Your livestock and poultry will show greater production and profit. Chinese Elm is the fastest growing, drought resistant, economical tree you can plant for a windbreak. In three years you will see a big growth, in 5 years you would not sell it back for hundreds of dollars. These young Chinese Elm Seedlings, are especially fine for windbreak planting. Plant them 4 to 6 feet apart. Two rows in zig-zag fashion help a lot, but three or four rows are better.

Fine 12 to 18 inch plants, Postpaid

For windbreaks, the Chinese Elm is certainly a great blessing. Plant this spring and in a few years you wouldn't part with them for many times what you paid for them. Every day, summer and winter, they add to your comfort and make you money by their protection. For best results, plant 3 or 4 rows.

12 to 18-inch Chinese Elms 5 Years after Planting

AMERICAN ELM

T15 This grand, stately tree is known, loved and planted from the Rockies to the Atlantic. In the country, the villages, the towns, the cities, it is equally popular. Without them, America would be indeed much less beautiful and comfortable. Plant 35 to 40 feet apart. This may seem a long distance apart at first but remember that it develops into a large, tall tree with a wide spreading top.

SUGAR MAPLE

T6 The Sugar Maple (also called Hard Maple) is native to almost every state east of the Rockies excepting the gulf states. It is a permanent tree that lasts for generations. There are many homes in America which are identified by the magnificent Sugar Maples planted fifty to a hundred or more years ago. It thrives in almost any kind of soil. There are two strains, a northern and a southern. Our trees are the northern strain, Iowa-grown. This strain colors more attractively in the fall when its luxuriant foliage is marvelous with tints of orange, gold and scarlet. It makes a large, spreading, perfectly formed tree, of which you will always be proud.

5 to 6 feet, Not Postpaid, **Each \$2.00, 2 for \$3.50**

5 to 6 feet, Not Postpaid, **Each 2.15**

6 to 8 feet, Not Postpaid, **Each 2.75**

PIN OAK

**the most majestic
of shade trees**

T11 Everybody thinks the Oak is a grand tree and always admires it. But few have planted them for two main reasons. In the first place they have sold at high prices. In the second place many people think they grow so slowly. Now we are offering the Pin Oak, the finest of all Oaks, at the price of just ordinary trees. Careful records have shown that the Pin Oak, the fastest growing of all the Oaks, actually grows almost as fast as the American Elm. It is one of the most enduring of all trees. A tree planted now will be a great pleasure to you and for generations to come. For street and lawn planting it has no equal.

It grows in symmetrical, pyramidal form and at maturity towers 60 to 80 feet high. The rich green foliage is deeply cut and colors to a glorious coppery-red in the fall. A sturdy, rugged grower, it adapts itself to all locations and is not bothered by insects or diseases. Plant Pin Oak and every year hereafter you will be thankful.

Beauty for all the Seasons

SCARLET MAPLE

PURPLE MAPLE (Schwedler's)

T5 This is one of America's finest shade and ornamental trees. Beautiful in spring, summer and fall. In the spring, the foliage is a rich reddish-purple. In the summer, it is a bronzy-green. In the fall, it is attractive golden-yellow. It is not a fast grower but the growth is so symmetrical and perfect that even a young tree has a commanding appearance. It is especially suitable as a specimen in the lawn and also makes a good tree for the parking. A permanent tree that lasts for many generations.

6 to 8 feet, Not Postpaid, **Each \$2.75**

5 to 6 feet, Not Postpaid, **Each 2.25**

4 to 5 feet, Not Postpaid, **Each 1.60**

SCARLET MAPLE (Rubrum)

T10 In the fall, this is the most gorgeously colored tree in all America. The leaves are a brilliant rosy-scarlet (like fall sumac leaves), much brighter than pictured here. Those who have seen hillsides ablaze with them never forget the scene. In the spring, the tree is full of scarlet flowers followed by bright red seed. The spring and summer foliage is attractive, deep green above and blue-green below. Makes a large, shapely, long-lived tree that is not so dense but grass grows underneath. Very valuable for lawn and parking. Grows from the gulf to Minnesota.

6 to 8 feet, Not Postpaid, **Each \$3.00**

5 to 6 feet, Not Postpaid, **Each \$2.50**

WHITE BIRCH

T8 White Birch in a new rare form, grown as a clump with three or more distinct trunks. It is the same as 3 trees with one root. It gives a naturalistic effect that is peculiarly attractive in the White Birch. After the tree has been planted for a year or two, the bark turns white and stays that way, summer and winter. It grows 25 to 30 feet tall. The green foliage colors an attractive yellow in the fall. You can easily imagine how beautiful it will look in your yard.

BLUE JUNIPER

E1 Blue Juniper (Patent No. 422)—A new evergreen that we consider the most outstanding variety introduced in the last 25 years. It is low growing like the Pfitzer's but the foliage has a beautiful silvery blue color that is impossible to reproduce on paper. The color is the brightest on the new growth and darkens somewhat on the inside. It is one of the few evergreens which will thrive over the entire United States, in the south as well as the north, east and west. Ideal for corners, for foundations, beside the walk, near the porch, any place you want a low growing Evergreen. It eventually reaches a height of 4 feet, and 6 to 8 feet wide. Postpaid.

Flowering Magnolia

T18 Magnolia, Soulangeana—This is the most popular hardy Magnolia. One of the first trees to bloom, the delightfully fragrant flowers appear before the leaves. They are pink in the bud and white when fully open. The blossoms are large, often 8 inches across. The foliage itself is attractive, a rich, waxy green. The tree seldom grows more than 10 feet tall and starts blooming before it is 3 feet tall. In fact, most of the young trees we send out have bloom buds on them. It is a strikingly beautiful, low-growing, flowering tree for the lawn.

3 to 4 feet, Postpaid.....	Each \$4.50

1 Viburnum Carlesi, 18 to 24 inches

6T19 Both for **\$4.50** Postpaid

F70 Dolgo Flowering Crab Tree—Plant this for beauty, for fruit. In the spring it is hidden by masses of beautiful flowers, white tinged blush. Then it bears a heavy crop regularly of the brightest red Crab Apples, which make the finest jelly you ever tasted. The tree itself is perfect in shape, pyramidal in growth, forming branches that turn upward like candles, giving the tree a candlelabra effect. Grows 15 to 20 feet tall, hardy, healthy, succeeds everywhere that apple trees grow.

VIBURNUM CARLESI

S145 This grand shrub is generally called the Pink Snowball. In the spring it is completely covered, from top to bottom, with blooms so fragrant they perfume the yard. The flowers are a light pink on the outside and the inside is snowy white. It makes a nicely shaped bush, five to six feet tall and just as wide, with branches right down to the ground. The deep green foliage colors a bronzy-red in the fall. It is planted from coast to coast. It adds beauty and distinction to your home planting.

Inter-State's Famous Gold Medal Collection

AMERICA'S FINEST EVER-BLOOMING ROSES

Free-Blooming • Fragrant • Gorgeous Colors • Hardy

Christopher Stone, unfading scarlet.

Mme. Joseph Perraud, buff-orange.

Contrast, vivid cerise and white.

Etoile de Hollande, velvety crimson.

McGredy's Yellow, pure clear yellow.

Duquesa de Penaranda, apricot.

The Doctor, sparkling bright pink.

McGredy's Ivory, magnificent white.

Picture, lovely rose-pink.

Mrs. P. S. DuPont, golden yellow.

Tens of thousands of homes from coast to coast have been made happier by planting our featured Gold Medal Collection of Roses. We are very careful to include only those roses that are the hardiest, the freest blooming, vigorous growers and fragrant, each one a leader in its color. Planted early this spring these roses will start to bloom in 8 weeks or so and continue till frost, year after year. Fully described on pages 48 and 49. Postpaid.

One each of all ten of these famous roses. They will bloom this Summer and grow from coast to coast.
Selected 2-Year No. 1 Plants
All 10 only \$8.95 Postpaid

C58 Peace (Patent No. 591). If you could see the actual rose, you would agree that it is the most beautiful you ever saw. It is the All America Rose Selection winner for 1946. Big, double flowers, a glorious blending of pink, cream, white and yellow, with a haunting fragrance. The plant has a real constitution, husky healthy canes with glossy disease-resistant foliage. All summer, one after another, come the superb, unusually long-lasting blooms, on long stems. Postpaid.

Each \$2.50
3 for \$6.75

Heart's Desire

Mme. Chiang Kai-shek

C14 Heart's Desire (Patent No. 501)—An all America winner that we believe is destined to become one of the greatest red roses. Buds are perfect and open into large, graceful, double flowers on long stems, fine for cutting. A bright yet soft crimson-scarlet that does not fade. So fragrant, a small bouquet perfumes a room. A healthy, hardy, vigorous grower that improves with age. Postpaid. **Each \$1.50.**

C15 Mme. Chiang Kai-shek (Patent applied for)—An All America Rose Selection winner for 1944 and one of the world's great roses. Superb pointed buds of soft yellow. As the petals gracefully unfold, the outer petals become a rich ivory, with center a clear canary-yellow. A full, double rose with 35 petals, freely produced on fine stems for cutting. A subtle fragrance that enchants you. Postpaid. **Each \$2.00.**

Crimson Glory

Lowell Thomas

America's Finest Patented Roses

C11 Crimson Glory (Patent No. 105)—A deep crimson with a velvety sheen. The flowers are perfect, exquisite buds opening into large, magnificent blooms, very fragrant. The plant makes a strong, rather spreading bush. Hardy, healthy, producing the beautiful flowers from early summer to frost. Lovely in the garden and exceptional for cutting. Postpaid. **Each \$1.50.**

C24 California (Patent No. 449)—This All America Rose Selection winner is a striking two-tone rose. The inside is orange tinged gold, the outside is bronzy-rose. Long pointed buds open into very large flowers often 5 to 6 inches across. Healthy, vigorous grower. Postpaid. **Each \$1.50.**

C10 Charlotte Armstrong (Patent No. 455)—An All America winner of 1941 that is nationally conceded to be one of the best roses introduced in the last ten years. Perfect streamlined buds open into amazingly beautiful flowers of sparkling cerise. Postpaid. **Each \$1.50.**

C12 Douglas MacArthur (Patent No. 581)—A new rose that requires no coddling. Hardy, healthy, vigorous, it produces lovely flowers all through the season. The long buds open slowly into beautiful flowers of glowing rose lighted with gold and delicate salmon. Postpaid. **Each \$1.50.**

C18 Lowell Thomas (Patent No. 595)—A 1944 All America winner with the clearest, purest yellow color. The perfect flowers come singly on long stems. Blooms all through the season, from early summer to frost. We consider it the finest rich, bright yellow rose. Holds its color and fragrance. Postpaid. **Each \$2.00.**

C16 Pearl Harbor (Patent No. 637)—This rose has all the robust health and vigor of Pink Radiance and produces a better flower. Blooms are larger, more double, a better bud, also better when open. The color is richer, a lovely light pink inside and bright pink outside. Free, continuous bloomer. Another feature you will like, it has almost no thorns. Postpaid. **Each \$1.50.**

C17 Shangri La (Patent applied for)—A magnificent new rose with lovely double flowers of brilliant rose-pink. Fragrant, long-lasting. Beautiful in the garden, fine for cutting. Healthy, vigorous grower, free-blooming. Postpaid. **Each \$1.50.**

INTER-STATE'S "Get-Acquainted" COLLECTION

This offer is made especially for those who have not planted any Inter-State roses. We want you to discover the satisfaction, the pleasure, the joy, that Inter-State roses have brought to hundreds of thousands. Every variety in this collection is exceptionally free-blooming, a vigorous grower, a hardy, rugged plant. We know that they will bring us repeat orders, satisfied customers.

Plant some this spring. Send some to friends. We will ship direct to them, postpaid. In eight weeks or so, they will start blooming, beautiful, fragrant flowers, lovely in the garden and fine for cutting, all summer and many summers to come. They are fully described on pages 48 and 49. You get exactly the same fine plants as though you paid the full price.

1. Golden Dawn, shining golden yellow.
2. McGredy's Scarlet, luminous carmine-red.
3. K. A. Victoria, freest blooming white.
4. Editor McFarland, glowing clear pink.
5. E. G. Hill, unfading, vivid scarlet crimson.

Our Finest Selected 2-Year No. 1 Plants

PLANT GROUPS AND BORDERS OF

Floribundas and Baby Roses

Remarkably Hardy—Bloom from Spring to Frost

FLORIBUNDAS

The profusely blooming Floribundas attract attention everywhere, in groups, beds or borders. The flowers are excellent for cutting. Plants are hardy, vigorous, disease-resistant. Plant 15 to 18 inches apart.

C90 Else Poulsen—Year after year this magnificent rose produces many clusters of apple-blossom pink flowers. As a hedge, in the border or solid bed, it is one of the finest of all roses. Hardy, blooms all summer. Grows 24 to 30 inches tall.

C91 Gruss An Aachen—Buds orange-pink, open into double flowers of exquisite orchid-pink. Always in bloom. Makes a rather spreading bush about 15 inches tall. Does fine in partial shade.

C92 Improved Lafayette—This variety is so attractive, that people passing a bed of it will stop and ask the name of the variety. Its cheerful cherry-red, semi-double flowers are produced lavishly from late spring to frost. the most profuse blooming rose we know. Grows 24 to 30 inches tall.

C94 Baby Chateau—Clusters of double velvety, deep crimson blooms, on long, strong stems. Glossy foliage. Makes a vigorous, bushy plant about 24 inches tall.

BABY ROSES (polyantha)

Plant them in solid beds or borders. They make charming borders for rose beds. They require so little care, and are very hardy. Bloom constantly from late spring to freezing. They grow about 18 inches tall. Plant 12 to 15 inches apart.

C96 Chatillon—The finest low-growing pink, with enormous heads of vivid pink flowers all through the season. You will want more after you see it bloom.

C97 Gloria Mundi—Huge clusters of brilliant orange-scarlet flowers, extremely double, cover the bushy plant all season. This variety will be a bright spot in your garden.

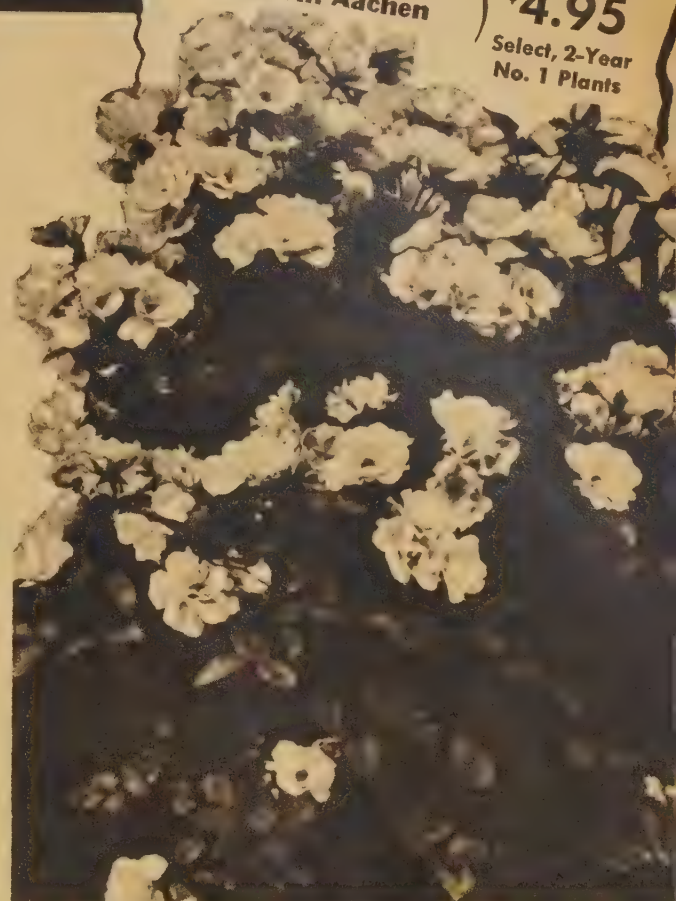

C98 Sparkler—The popular low-growing red baby rose. It is always full of bright crimson flowers. A solid bed or border is a constant delight.

C99 White Baby—The lovely double white blooms are produced freely throughout the season. Used for cemetery planting or any place you want a low-growing plant with white flowers all summer.

Selected 2-Year, No. 1 Plants

C22 Christopher Stone—A most exciting new rose—a brilliant, sparkling scarlet-crimson without a trace of blue. Shapely long pointed buds open into large attractive flowers with the true old damask rose fragrance. A healthy, vigorous grower and exceedingly free-bloomer. Stands lots of heat. Generally considered the best bright red rose. Pictured on page 42.

C21 Condesa de Sastago—Large, fragrant flowers of fiery copper-red inside and rich yellow outside. Strong, healthy, vigorous grower and free bloomer. It is one of the great roses of all time. Pictured on page 46.

C23 Contrast—A strikingly beautiful two-tone rose, the inside of the petal is cerise-rose with a brightening touch of orange, and the outside is satiny white. The flowers are very full and double, fragrant and produced abundantly throughout the entire season. Extra fine in the garden and unsurpassed for cutting with their long stems. It is a strong, husky, vigorous grower, healthy and hardy. A great rose—a rose that "can take it." Pictured on page 42.

C25 Duquesa de Penaranda—A most intriguing color of orange-apricot, with deeper coppery tones, large pointed buds, sweetly perfumed and long lasting. A tall, strong grower with beautiful light green shiny foliage. One of the first varieties to bloom in the spring. Pictured on page 43.

C26 Edith Nellie Perkins—One of the finest of all roses. The long, pointed buds come on long stems and open into perfect flowers of orange-cerise and salmon tinged gold inside. Fragrant. Grows vigorously and blooms freely.

C27 Editor McFarland—All through the season, the lovely fragrant, glowing pink flowers are produced on long, strong stems, fine for cutting. The buds are perfect. We consider this one of the finest pink roses ever introduced. Pictured on page 46.

C28 E. G. Hill—Large flowers of very lasting dazzling scarlet-crimson, never fading or turning blue, but actually becoming deeper red as they open. The flowers are borne on long stems and are very fragrant. Its brilliant color, extra freedom of bloom and lasting color qualities have made it so popular. Pictured on page 46.

ALL flowers are beautiful but the Rose is rightfully called the Queen of All Flowers. None other can equal its fragrance, its colorful beauty, its grace, its freedom of bloom from spring to frost—each flower bringing its message of joy, cheer and beauty.

Can you think of another hobby that will provide more pleasure and more beauty for you than growing roses? There is a thrill when you walk into a rose garden and smell the delightful fragrance of the beautiful flowers.

Each year many thousands buy from this fascinating selection of glorious, hardy, everblooming roses. They will commence blooming 7 to 8 weeks after planting. **PLANT ROSES EARLY**, around the time when people are putting in their early gardens. Plant 15 to 20 inches apart. With each order we send Planting Instructions telling you how to plant and care for your roses.

These are all strictly first quality, hardy, field-grown plants, which have made Inter-State roses famous all over America.

C30 Etoile de Hollande—The perfect buds open beautifully into glorious perfect flowers of velvety crimson. Incomparable fragrance. The bush is strong, free branching and healthy. Fine for cutting. Pictured on page 42.

CLOTRACIDE

(Reg. U. S. Pat. Off.)

THE COMPLETE SPRAY FOR ROSES

**NO OTHER SPRAY IS NEEDED
WHEN CLOTRACIDE IS USED**

*Convenient to Use
Effective in Results
Economical in Price*

Clean healthy foliage is essential to grow good roses. Spray regularly, spray thoroughly, and keep your plants clean and healthy. Clotracide contains all the necessary chemicals for the control of insects and also fungus diseases such as Black Spot and Mildew.

Complete directions on every package. Guaranteed satisfactory or money refunded.

**K150 \$1.50 per package
Postpaid**

Makes 20 gallons of complete spray.

**K151 \$5.75 per package
Postpaid**

Makes 80 gallons of complete spray.

C34 Frau Karl Druschki—The magnificent white rose that is loved by all. Immense long, pointed buds open into graceful flowers that are unsurpassed for form and the color is the clearest, pure white. Perfectly hardy. Such a vigorous grower you should plant them farther apart.

C35 Glowing Carmine—Large, fully double fragrant flowers of the most beautiful shade of rich carmine. Freely produced on long, strong stems. Long-lasting.

C36 Golden Dawn—This lovely rose has taken the entire world by storm. The gorgeous buds of yellow have splashes of carmine and open into large, fragrant flowers of rich yellow. Hardy, vigorous, free-blooming. Pictured on page 46.

C37 Golden Rapture—Exceedingly fine new rose with fragrant flowers of clear golden yellow. Exquisite buds on long stems, fine for cutting as they last so long. A robust grower, it produces its fine flowers all through the season.

C38 Gruss an Teplitz—A great bedding rose, always in bloom. The flowers are fragrant and such an intense scarlet. Very hardy. A bed of about 250 plants in our famous rose garden at the World's Fair in Chicago always attracted much attention.

C44 K. A. Victoria—Absolutely perfect, fragrant flowers of ivory-white. An old favorite that even today has not been surpassed. Pictured on page 46.

C46 Margaret McGredy—At first the color is a bright orange-scarlet that lightens to a rich carmine and is beautiful at all times. A healthy, vigorous grower that is always in bloom.

C47 McGredy's Ivory—A magnificent creamy-white rose that is fragrant and deep-petaled. Buds are long pointed, opening into very large, double flowers. Many consider it the finest white rose. Pictured on page 43.

C48 McGredy's Scarlet—A wonderful rose, beautiful in the garden and fine for cutting. The large, perfect flowers of luminous carmine-red are produced generously from spring until frost. Should be in every rose garden. Pictured on page 46.

C49 McGredy's Yellow—This is our favorite yellow rose. The color is so soft and clear and pure. The flower has a charm and grace all its own and entirely distinct. A strong grower and free bloomer. Pictured on page 42.

C51 Mme. Joseph Perraud—This outstanding rose is pictured on page 42. A wonderful exhibition and garden rose. The long slender buds open into fragrant full flowers of nasturtium buff flushed orange. Very vigorous. Large, glossy foliage.

C52 Mme. Jules Bouche—A very fine white garden rose. The sweetly scented blooms are produced very freely all season and last a long time when cut.

C54 Mrs. E. P. Thom—A grand rose of unfading, clear yellow. Strong growing and free-blooming, it has made good all over America.

C55 Mrs. P. S. DuPont—From early summer until freezing this rose is a glorious sight with its rich yellow flowers. Long pointed buds, fragrant, profuse bloomer. It was the favorite yellow rose in our World's Fair Rose Garden in Chicago. Pictured on page 43.

C59 Picture—We consider this one of the very finest pink roses in existence, a clear pink with just a trace of salmon to give it a warm glow. Delightfully fragrant. The blooms are perfect in bud and when open. Very vigorous plant which blooms continuously. Pictured on page 43.

C60 Pink Dawn—A new rose that is fine for both gardening and cutting. The buds are lovely, and open into large, fully double flowers of clear, purest pink. Extremely fragrant. A vigorous grower, hardy and free-blooming.

C64 Pres. Hoover—A glorious combination of cerise-toned orange, scarlet and yellow. Richly perfumed, long stemmed and free-blooming.

C66 Radiance, Pink—The great American pink rose, planted everywhere because it has made good all over America. The fragrant flowers are produced abundantly all season.

C67 Radiance, Red—This is one of America's great red roses. Vigorous grower, hardy, healthy, free-blooming, with a true rose fragrance.

C75 Talisman—A glorious combination of orange-yellow and rose-red. The buds are long pointed, flower is double, high centered. The fragrant flowers are freely produced all season and are especially fine for cutting as they come on long stems. The fall bloom is exceptionally gorgeous.

C77 The Doctor—This is considered by many to be the most beautifully colored of all roses. Mr. Fred Howard, the greatest living American rose hybridizer considers it to be one of his greatest achievements. The long, pointed buds open into simply enormous, yet graceful blooms, so fragrant that you can detect them many yards away. It is a pink with a life, an iridescence, a sheen that is beyond description. Each flower is so perfect, so gorgeous, that you will consider it almost priceless. It is far more beautiful than pictured on page 43.

RA-PID-GRO

**A Liquid Plant Food,
Guaranteed Satisfactory
For Better Flowers, Better Lawns,
Better Shrubs and Trees,
Better Gardens**

Here is a product that we would like to have everybody use. When planting, you simply put 4 level teaspoonfuls of RA-PID-GRO in 1 gallon of water (8 level teaspoonfuls in 2 gallons water, etc.). Soak the roots of Roses for 3 minutes. They will start much more quickly and bloom much sooner. Soak roots of shrubs for 3 minutes; roots of trees for 4 minutes; just dip Perennial plant roots for a second or two. Strawberry plant roots are dipped for just a second or two. Raspberry, Blackberry, Boysenberry, Healthberry roots, Grapes, Gooseberries, Currants and Blueberries are dipped for one minute. After dipping, plant right away, keeping all roots protected from sun and wind. When through planting, pour the solution around the newly planted stock. Then every 2 to 3 weeks, use RA-PID-GRO and you will get the very best results. 1 pound makes 22 gallons of quick-acting fertilizer.

—fine for lawns too

It is marvelous for invigorating lawns. For using on the lawn and large areas, we have a special nozzle. It costs \$1.50 Postpaid. It automatically measures out the right amount of RA-PID-GRO. However, you do not need this nozzle for ordinary garden use. You simply put RA-PID-GRO in water in a pail or sprinkling can, then pour it around the stock you wish to fertilize. We realize the soil in most yards is not as fertile as it should be. RA-PID-GRO will overcome this and you will be greatly pleased at the increased growth you get. Try it at our risk. If you are not entirely pleased, your money will be refunded. Instructions on every package.

K160 1 Pound for \$1.25

K161 2 Pounds for 2.35

K162 5 Pounds for 4.50

K163 10 Pounds for 8.75

All Postpaid

INTER-STATE'S

CLIMBING ROSES

For a mass display of color, hardly anything can equal climbing roses in full bloom. Used on porches, arbors, trellis and trailing over fences. All these climbers are hardy, but we recommend that winter protection be given in cold sections. Set 3 to 4 feet apart. All climbing roses are postpaid.

C152 New Dawn (Patent No. 1)—This is the first Everblooming Climbing Rose, and also the first plant that was issued a patent. No other climber will produce as many flowers constantly from late spring to frosts. The flowers are large, a lovely apple-blossom pink, delightfully fragrant. They come on long stems, ideal for cutting. It is hardy. Any day in summer, you can go out and find flowers. **Each \$1.50**

6C170 1 New Dawn and 2 Paul's Scarlet for \$3.15 Postpaid

C149 Blue Rambler—This climber has the most unusual colored flowers, steel blue with rose shadings. **Each 65c, 3 for \$1.65.**

C160 Climbing American Beauty—An old favorite with many thousands of friends. The entire plant, from top to bottom, is full of large, fragrant, double, deep rosy-pink flowers. Fine for cutting as they come on long stems. **Each \$1.00, 3 for \$2.50.**

C159 Dr. Huey—It produces strong canes, 8 to 10 feet long, that are completely covered with the richest, darkest crimson-maroon flowers. We have never yet talked with anyone who did not like it. A big plant, in full bloom, is truly a magnificent sight. It is an ideal pillar rose. **Each \$1.00, 3 for \$2.50.**

C148 Excelsa—Bright crimson flowers in large clusters. Another old favorite that does well everywhere. **Each 65c, 3 for \$1.65.**

C158 Mary Wallace—The nicely shaped, long pointed buds open to large, fragrant bright pink flowers. Profuse bloomer, very hardy. **Each \$1.00, 3 for \$2.50.**

C162 Primrose—A hardy climber with large, fully double, canary-yellow flowers. **Each \$1.00, 3 for \$2.50.**

C163 Silver Moon—Many think this the most lovely white climbing rose in existence. It is a strong grower. The flowers are large, semi-double, a soft white with just a faint ivory tinge and golden stamens in the center. **Each \$1.00, 3 for \$2.50.**

C164 Thousand Beauty—This great climbing rose is ABSOLUTELY THORNLESS. It produces lavishly immense clusters of large, double, fragrant, bright pink flowers. It makes a large plant 8 to 10 feet tall. Very hardy. **Each 65c, 3 for \$1.65.**

C146 White Dorothy—Great clusters of double white flowers. Easy to grow everywhere. **Each 65c, 3 for \$1.65.**

PAUL'S SCARLET

Most Popular Red Climbing Rose

C161 This famous rose is the most popular red climbing rose ever introduced. A mature plant in full bloom is a sight that simply stops everybody who passes by. It is a solid sheet of blazing scarlet. The color does not fade but is as bright when last petals fall as when it opened. It often blooms again lightly in the fall. The flowers come in clusters on long stems. A hardy, vigorous grower. Plant them on a trellis or porch. A row of them along the fence will be the talk of the town.

Inter-State's Glads

THE FINEST OF ALL FLOWERS FOR CUTTING

We guarantee our Gladiolus bulbs to please you when you get them **ALSO WHEN THEY BLOOM**. When you receive the bulbs, if you are not satisfied, return just one-half of them and we will refund all the money you paid us for all of them. Also when they bloom, if you are not delighted you may select from our catalog, without cost, anything you wish equal to the amount you paid us for the Glads. We take great care in selecting our varieties and list only the better, finer kinds. That is why we sell them by the millions, with countless thousands of satisfied customers from coast to coast. Excepting the Glad Color Parade Collection, all the Glad bulbs we send you are large bulbs, 1 to 2 inches across. The extra large 1½ to 2 inch bulbs bloom first, followed in a few days by the 1¼ to 1½ inch bulbs and then the 1 to 1¼ bloom last. Sending these varied sizes, gives you a very long blooming season. Keep the bulbs in a cool, dry place until ground warms up in the spring. Then plant about 6 inches deep and 6 to 9 inches apart. All Glads are Postpaid.

GLAD VARIETIES

G1 Amrita—Tall spikes of large, heavily ruffled flowers, clear buff tinged with pink and a warm yellow throat.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G5 Bagdad—One of the finest Glads of all times. Very large flowers on extremely tall, heavy stems. The color is a magnificent blend of old-rose, lilac, tinged with copper and salmon. See Page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G6 Barcarole—A new variety that many think is the finest orange. The flowers are large, beautifully ruffled, a shimmering orange lightened with a delicate touch of salmon. Very beautiful indeed. See page 55.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G7 Beacon—One of the most brilliantly colored Glads. In the garden and in a bouquet it adds "life." The beautifully ruffled flower is a vivid vermilion-scarlet with light yellow throat. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

G8 Black Opal—Many consider this the finest extremely dark red. The flowers are large and come on excellent long spikes. The color is a very deep maroon shaded black. See page 55.

3 for 40c 12 for \$1.25
6 for 75c 25 for 2.25

G9 Blaze—The brightest, most brilliant scarlet-red in our fields.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G10 Blue Beauty—This is rapidly becoming the most popular of its color in America. A wonderful even blue shading darker towards the edges. Large wide open flowers on strong stems. See page 55.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G11 Brightside—A tall spike of lovely ruffled flowers of deep orange shaded bronze and gold. In a bouquet it is marvelous. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

Glad Color Parade

These are our best quality, medium size bulbs, not labeled. Guaranteed to bloom and please you. We include many of our finest kinds like Barcarole, Blue Beauty, Margaret Beaton, Black Opal, Corona, Marguerite, Pelegrina, Beacon, etc. This is a hand-picked selection, some so new they may never have been grown in your neighborhood before.

6 for 65c 25 for 1.95

G32 Golden Cup—Fine spikes of a rich clear deep yellow. One of our favorite yellows. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G37 King Arthur—Immense, heavily ruffled flowers of a very beautiful light purple. See page 54.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G38 King Lear—A magnificent purple of large size and lustrous sheen, beautifully ruffled.

3 for 40c 12 for \$1.25
6 for 75c 25 for 2.25

G39 Leona—A striking flower of rich, glowing deepest rose.

3 for 40c 12 for \$1.25
6 for 75c 25 for 2.25

G45 Maid of Orleans—The most popular white Glad in America today. Every bulb produces a tall splendid straight spike which opens perfectly. A warm white with a light creamy throat. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G46 Margaret Beaton—No new variety has created a greater sensation than this. Everyone who sees it wants it. The spikes are tall and straight. The flowers are very large, pure snow-white with a vermilion spot in the throat. It is superb. See page 55.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G47 Margaret Fulton—The florists like this variety because it is such a fine cut flower. The color is a rich, deep salmon. It blooms early and perfectly every year. One of the best all around Glads ever produced. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G52 Marguerite—Luscious ripe watermelon pink with a golden throat. The flowers are huge, on strong stems. It is a Glad out of thousands. See it on page 53.

3 for \$.75 12 for \$2.35
6 for 1.35 25 for 4.25

G49 Minuet—For many years this has been America's most popular lavender. Perfect flowers on straight stems. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

G53 Myrna—This new heavily ruffled white has won more blue ribbons in the last few years, than any other white.

3 for 40c 12 for \$1.25
6 for 75c 25 for 2.25

G54 New Era—A delightful rich shade of LaFrance pink with soft creamy throat. The flowers are beautifully ruffled and come on tall straight stems. See page 55.

3 for 40c 12 for \$1.25
6 for 75c 25 for 2.25

G55 Oregon Gold—The most beautiful yellow Glad we have ever seen. The flowers are perfect in form, heavily ruffled, a clear light yellow without a single mark. Lasts a long time when cut. One of America's greatest Glads.

3 for \$1.50 12 for \$5.00
6 for 2.75 25 for 9.25

Rainbow GLAD COLLECTION

10 Red	10 Yellow
10 Blue	10 White
10 Rose	10 Lavender
10 Buff	10 Salmon
10 Pink	10 Blends

GG106 All 100 Bulbs for \$4.25 Postpaid

This grand collection with colors that rival the rainbow, will bring you beauty, joy and pleasure. These bulbs are the large and medium sizes together thus giving you a longer season of bloom as the large bulbs bloom first and the medium later. Glads start blooming 10 to 11 weeks after planting. Make several plantings, 2 weeks apart, and you will have flowers for many weeks.

G59 Peggy Lou—Few varieties have won more Blue Ribbons than this. Tall strong spikes with lovely flowers of shrimp-pink tinged rose. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G60 Pelegrina—We believe this is the best dark blue. The color is so rich and lustrous. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

G62 Picardy—America's most popular Glad. Wonderful pink flowers of light salmon-pink. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

G65 Queen of Bremen—The best early lavender. Especially fine for cutting. The open flowers are very graceful. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G68 Red Phipps—Probably the florists' favorite red Glad. A glowing shade of coral-red that blends so nicely with other colors. Always opens perfectly on good stems. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G69 Rewi Fallu—The most popular dark red. The flowers are very large on tall straight spikes. A deep, rich, velvety, blood-red. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

G70 Rosa van Lima—This is another variety that everybody wants when they see it. Beautiful in the garden and especially fine for cutting. Large flowers on tall straight stems. The color is a pure, clear pink of such loveliness as is seldom seen. See page 54.

3 for 30c 12 for \$.90
6 for 50c 25 for 1.65

G71 Ruffled Beauty—One of the very best yellows. The flowers are ruffled and the color is such an even, clear, pure yellow. See page 55.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G74 Shirley Temple—Very large, beautiful ruffled flowers of waxy cream blending to a light yellow throat. Has won Blue Ribbons from coast to coast. See page 54.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G75 Snow Princess—Many think this the finest white. Very tall strong spikes with immense flowers of pure snow-white. See page 55.

3 for 35c 12 for \$1.15
6 for 65c 25 for 1.95

G78 Stoplight—The perfect red, with exquisitely ruffled flowers of the richest crimson, velvety texture. See page 53.

3 for \$.75 12 for \$2.00
6 for 1.25 25 for 3.75

G80 Token—Beautifully ruffled flowers of a brilliant flame with a golden throat. It blooms early and is a fine cut flower. See page 56.

3 for 25c 12 for \$.75
6 for 42c 25 for 1.35

G84 White Gold—This huge Glad has created the greatest sensation of any Glad in the last three years. Flowers are simply immense, the color is a satiny cream shading to gold. It is really far more impressive than shown on page 53.

3 for \$1.50 6 for \$2.85

G86 Zuni—One of the most spectacular flowers. Tall spikes with large, lightly ruffled flowers of salmon, purple and coppery orange. See page 55.

3 for 40c 12 for \$1.25
6 for 75c 25 for 2.25

De Luxe Glads

6G89

15 Bulbs for \$1.00

EACH ONE DIFFERENT

In this collection, are exactly the same fine varieties as described on these pages, but they are not labeled. Each bulb is a different color. They are all large bulbs. What wonderful, beautiful flowers of all colors they will bring you this summer. When they bloom, you will easily recognize some of our finest like Blue Beauty, Picardy, King Lear, etc.

Four of the finest Glads

No words, no picture can do justice to these four Glads. Only the flowers themselves show their exquisite beauty, the texture, the form, their large size, 5 to 6 inches across. Seldom, indeed, do the hybridizers achieve such success as they have in these. We promise you that when they bloom you will be so delighted, so excited that you will call over your neighbors to enjoy them with you. At flower shows, they certainly win the blue ribbons. They will be planted by the million as soon as enough can be grown. More fully described on pages 51 and 52.

Grow Prize Dahlias

Dahlias are the largest and most beautifully colored of all the late summer and fall flowers. Easy to grow, we send simple planting instructions with every order. For exhibition, nip off the side branches allowing only a few main stems to grow. For lots of flowers, nip the ends of the main shoots when only a foot or so tall, making them branch. A young, small to medium-size bulb will do much better than a large, sappy, over-grown bulb. Even though Dahlias are planted late, we suggest that you order them early. They will keep perfectly in a moderately cool place, until planting time. ALL DAHLIAS ARE POSTPAID.

6B29 **Two Each of All 4 These Dahlias for** \$3.25

6B30 **One Each of All 4 These Dahlias for** \$1.75

GIANT COLLECTION

These are four of America's finest and largest dahlias. Our supply is limited so we did not dare show them in color. They will certainly be a beauty spot in your garden. They are Blue Ribbon Winners. You who want to exhibit at flower shows or have dahlias that will be the envy of all who see, plant these Giant-flowered for a real sensation.

B27 Blue River—Immense flowers nearly a foot across. Very distinctive color, the nearest to true blue of any dahlia we know. **Each 65c.**

B7 California Idol—Giant flowers of rich yellow almost as wide across as this book is long. Long strong stems. Generally considered the finest yellow and one of the greatest dahlias of all time. Its rather small tubers certainly produce giant blooms. **Each 65c.**

B15 Mrs. Boutillier—Most dahlia growers consider this the greatest of all red dahlias. Flowers are huge, often 12 inches or even more, across. A vivid, pleasing shade of rich crimson. A vigorous grower producing its blooms on strong stems above the foliage. **Each 65c.**

B20 Thomas A. Edison—Large, magnificent flowers of richest, satiny purple. Always draws your eyes as far as you can see. **Each 65c.**

Mixed Collection

These dahlias, all different, are not labeled. If you want beautiful flowers and do not care to know the names (many will recognize choice varieties), this is a very good offer. We include many kinds of which we do not have enough to list, many very fine.

6B31 **6 for \$1.00 Postpaid**

Button Dahlias

These Button (Pompon) dahlias have small flowers 1½ inches across, perfect in form. Produced continuously for many weeks. Beautiful in the garden, fine for cutting. You will like the rich, glowing colors. The bulbs are smaller than the larger flowered varieties but it is astonishing how freely they bloom.

6B4 **Mixed Colors, Postpaid**

2 for 50c 5 for \$1.00

These are also called Ball dahlias. They are small, 2 to 3 inches across. Tremendous bloomers, from early in the season to frost. The flowers come singly on long stems, attractive in the garden and especially fine for cutting. Every day, in season, you can cut a bouquet. The colors are so clean, bright and cheerful, and blend beautifully. Plant them freely, you will be richly rewarded.

Plant More Peonies

THE PERFECT FLOWER · BLOOM EVERY YEAR

NO CARE · NO TROUBLE

LAST A LIFETIME

Inter-State Peonies are guaranteed to please you when you get them and also when they bloom. Fall 1944 one customer bought a solid car load of our Peonies. He bought another car last fall. He says we grow the finest Peonies in America. We have a rare Loess soil which does produce extra fine, vigorous, free-blooming Peony plants. We are one of the very largest Peony growers in the United States. We send you number one roots with 3 to 5 eyes each. Plant them in well drained soil, in full sunlight, about 4 feet apart and cover with 2 inches of soil over the crown or eyes. Peonies never winter-kill in the most severe climate and produce a great abundance of flowers for a lifetime. All Peonies are Postpaid.

World's Highest Rated Peonies

Below we list three of the world's finest and highest rated Peonies. In every peony show you will find them among the Blue Ribbon Winners. Now offered at a special price.

P686 Solange—When you see this magnificent flower at its best, you will understand why it has probably won more blue ribbons than any other variety. The color is rich ivory with a tinge of pinkish buff. It rates 97. **Each \$1.00.**

P691 Therese—This is the world's highest rated pink Peony, rating 98. An exquisite light pink that produces its perfect flowers every year. **Each \$1.25.**

P693 Walter Faxon—No other Peony in all the world has a color like this, a sparkling bright pink with a luminous glow as though a light bulb was in the center of the flower. To see it at its best, cut the flower when it starts to open and bring indoors. It rates 93. **Each \$1.25.**

Here we have selected three medium priced Peonies which are fine enough to go in the best gardens. Each one blooms perfectly every spring.

P635 Frances Willard—This is one of the best and most satisfactory white Peonies we grow. The flowers are large and perfect shape. They open a light blush then change to pure snow white, with occasional red marks on center petals. It rates 91. **Each \$1.00.**

P697 Mikado—Don't let the name bother you. This is one of the world's most brilliantly colored Peonies. The outer petals are a solid deep crimson with a full center of shorter red petals, each one with a golden edge. It is so different from the other kinds. Certainly stands out in any garden. **Each \$1.00**

P669 Mons. Jules Elie—This grand Peony rates 92 and is one of the greatest Peonies of all time. Simply huge flowers of glowing pink. It never fails. If this were a new, recently introduced variety the price would be at least \$10.00, probably more. Now yours for only, **Each 75c.**

Popular Peonies

Just because these three Peonies are priced low, do not think for a minute they are not good. As a matter of fact, these are the "bread and butter" kinds, sold in enormous quantities the country over. They are not exhibition flowers but every spring, every plant is loaded full of flowers and they certainly produce a lot of lovely bouquets.

P626 Edulis Superba—Called the great Memorial Day Pink because it blooms so early. **Each 40c.**

P632 Felix Crousse—The most popular red in all America. **Each 50c.**

P668 Mme. de Verneville—Large, full, fragrant flowers of snow-white. **Each 50c.**

INTER-STATE

Iris

These are the newer, finer, Iris with larger flowers and more attractive colors. In the spring we ship Iris until around May 1st. Then we wait until around July 15th before shipping again. All Iris are Postpaid.

UNUSUAL IRIS

These are very fine Iris that will add much to your garden.

P469 Angelus—Large pink flowers, a "peaches and cream" blend. **Each 60c.**

P468 Copper Lustre—This large copper flower sparkles in the sun like a new penny. **Each 60c.**

P459 Golden Majesty—Giant bright yellow flowers on tall stems. **Each \$1.00.**

P467 Gudrun—Huge flowers of snow-white. **Each 45c.**

P438 Indian Hills—Magnificent fragrant flowers of brilliant purple with great carrying power. **Each 50c.**

P412 Tiffany—Large, gaily colored flowers of rosy-pink on a creamy-yellow background. A sensational new Sass Iris that is not only beautiful but entirely different. **Each 60c.**

6P470 UNUSUAL COLLECTION

1 Each of All Five Iris Above for \$2.45 Postpaid (\$3.15 Value)

FAMOUS SASS IRIS

The Sass's, Hans P., Jacob and Henry, are recognized as being America's foremost Iris hybridizers. Their Iris are famous for freedom of bloom, beautiful colors and great vigor. Only a few short years back, these Iris cost as much as \$35.00 each.

P421 Amitola—A tremendous producer of large, ruffled flowers, a beautiful blend of pink, apricot and gold. **Each 40c.**

P410 Black Douglas—Like a piece of soft velvet, is this rich royal purple with a black sheen. **Each 35c.**

P423 Claribel—Tall, stately stems with very large flowers of purest snow-white edged bright blue, and a golden beard. A real beauty. **Each 40c.**

P411 Spokan—Glowing red with coppery undertone, so brilliant it is the first to catch your eye. **Each 40c.**

P419 Sandalwood—Here is a very rare color in Iris, light bronze. It tones your planting. **Each 45c.**

P412 Tiffany—Pictured above. One of Sass's greatest Iris. **Each 60c.**

P425 War Eagle—Immense flowers of deep ox-blood red. **Each 40c.**

DELUXE IRIS

You will find these Iris in the best gardens. Selected for a harmonious color effect. Large flowers, rich colors, free-blooming. Guaranteed to please you when they bloom.

P444 Cheerio—Our most popular red Iris. **Each 40c.**

P456 Destiny—Very effective in the garden, a deep black-purple with yellow beard. If you are not enthused, we will exchange for anything else you want. **Each 50c.**

P424 Frieda Mohr—The most popular pink Iris ever sold. Large, fragrant, perfect flowers. **Each 40c.**

P457 Happy Days—Largest, most popular clear yellow with flowers 7 inches from top to bottom. 7 or 8 flowers on each tall stem. **Each 35c.**

P460 Junaluska—Very brilliant with falls of velvety carmine and standards of rose tinged gold. Large and perfect flowers, freely produced. **Each 40c.**

P473 Naranja—This is the very first Iris with a distinct orange tone. **Each 35c.**

P472 Sierra Blue—Giant true blue flowers on tall, stately stems. **Each 40c.**

LANDSCAPE IRIS

6P414 All different, not labeled, in a wide range of colors. If bought by name, you would pay twice this much or more. A great value for you who want beautiful flowers and do not want to bother keeping track of the names.

Inter-State's Hardy Perennials for Lasting Beauty

Above, Lady Fern

HARDY CARNATIONS

P76 Hardy Carnations—These are becoming popular because they are not only lovely in the garden but are fine for cutting. The flowers are very fragrant and come on long stems. Bloom freely in early summer and at intervals thereafter. Grow 18 to 20 inches tall. They are hardy but in cold sections, we recommend a light winter mulch to prevent alternate freezing and thawing. We send a mixture of colors, red, pink, white and yellow, which blend beautifully in a bouquet.

**8 for \$1.75, 4 for \$1.00,
Each 30c, Postpaid**

American Maidenhair Fern

HARDY FERNS

Many ask us, "What can I plant in shady places?" Among the very best, are these Hardy Ferns. They thrive in the shade. That is their natural home. Perfectly hardy, they come up year after year. Also very fine to put in bouquets.

P120 American Maidenhair—This lovely Fern is pictured. Grows about a foot tall.

P121 Hayscented—Grows in semi-sunny places as well as shade. 12 to 18 inches tall.

P122 Interrupted—Good for foundation planting in shade or part-shade. 2 to 4 feet tall.

P123 Lady—Pictured. Likes the shade. 1 to 2 feet tall.

P124 Ostrich Plume—Especially fine for a shady, rather moist spot. 2 to 4 feet tall.

**Your Choice Above Ferns
Postpaid**

**5 for \$1.40, 3 for 90c
Each 35c**

LILIES OF THE VALLEY

P193 Everybody loves these delightfully fragrant white spring flowers. A bouquet will perfume an entire room. Nothing is easier to grow. They thrive in full shade on the north side of your home or garage, right against the wall where few plants will live. They will also do fine right out in the full sun. The foliage stays green all summer, in spots where grass will not grow. We send you clumps of 5 Pips. Plant the clumps a foot or so apart. If planted early, you will get some flowers this season. They will increase and soon you will have a fine bed with hundreds of blooms.

Postpaid

3 for \$1.00, Each 40c

DELPHINIUMS

P102 Pacific Hybrids—The flowers are immense, 2½ to 3 inches across. The colors range from pure white, sky-blue to deepest indigo-blue, purples, violets, and those exquisite shades of orchid-pink. The plants grow 4 to 7 feet tall with flower trusses often 3 to 4 feet long. Cut the stems after the first great burst of bloom and they will repeat.

3 for \$1.00, Each 40c Postpaid

P100 Cliveden Beauty—Many think that this is the finest of all light blue flowers. Grows 3 to 4 feet tall and blooms at intervals all summer. A healthy, vigorous grower that lasts for many years. Lovely in the garden and an exceptionally fine cut flower.

4 for \$1.00, Each 30c Postpaid

P101 La Martine—Should be in every garden. The rich, dark blue flowers are so lovely, both in the garden and for cutting. A great mass of flowers in early summer and at intervals all summer. Cut a flower spike and another grows out to bloom later. A healthy, vigorous grower 4 feet tall that lasts for years.

4 for \$1.00, Each 30c Postpaid

P151 Pink

**4 for \$1.00, Each 35c
Postpaid**

P226 Plantain Lily (Funkia Sub. Grand.)—One of our best, most useful plants. Hardy, grows anywhere, in sun or shade. Especially fine for shady places where few plants will live. Makes fine ground cover for lily beds. It grows 18 inches tall, has attractive foliage and blooms freely in August-September. The large flowers are snow-white, fragrant and resemble Easter Lilies.

**3 for \$1.50, Each 60c
Postpaid**

BLEEDING HEARTS

P58 Bleeding Heart—A favorite in Grandmother's garden half a century ago, it is equally popular today. Grows 2 feet tall. Thrives in partial shade, but will grow in full sun. Attractive foliage. Graceful heart-shaped pink flowers in April-May. The plant becomes larger, more beautiful, each passing year.

THE BEST OF THE OLD FAVORITES

Here are flowers that have been favorites for decades. They are planted the country over.
Lovely in the garden and good for cutting.

Your Choice, Alike or Assorted, Postpaid
24 for \$3.65 12 for \$2.00 5 for \$1.00

P64 Canterbury Bells—In May-June completely covered with bell-shaped flowers. 2 feet tall. Your choice of Blue, Pink or White.

P104 Delphinium, Chinese Blue—Navy blue flowers in early summer. Grows 2 to 3 feet tall with fine feathery foliage.

P155 Dianthus, Everblooming Red—Intense scarlet flowers all summer. 12 inches tall.

P113 Dianthus, Spring Beauty—Large, carnation-like flowers for many weeks. Very fragrant. Many lovely colors. 15 inches.

P139 Forget-Me-Not—All summer the dainty blue flowers are produced. Fine for ground cover among Lilies, Tulips, etc. 6 inches.

P140 Gaillardia, Burgundy—Large red flowers all summer. So easy to grow. 2½ feet.

P205 Giant Hibiscus (Mallow Marvels)—Big flowers, 5 to 6 inches across, from midsummer to late fall. Fine for background. 4 to 5 feet.

P194 Liatris (Gay-feather)—During the heat of midsummer nothing will attract more attention than these tall spikes of purple. 3 to 4 feet.

P315 Linum, Blue Flax—Even without the lovely blue flowers all summer long, the gracefully feathery foliage makes it worth while. 12 inches.

P316 Linum, Yellow Flax—Golden yellow flowers all summer. Very attractive plant. 12 inches.

P223 Platycodon, Balloon Flower—Lovely, bell-shaped flowers of blue or white all summer, long stems. 18 to 24 inches.

P241 Pyrethrum, Painted Daisy—This popular plant with feathery foliage produces its lovely flowers in varied shades of red, pink and white, in the spring and early summer. 2 feet.

P269 Scabiosa, House's Hybrids—Especially fine for cutting as the large flowers, in various shades of blue, come singly on long stems, from midsummer to frost. 2½ feet.

P277 Shasta Daisy—No garden can do without them. In late spring and early summer, the large white flowers with golden centers are so attractive in the garden and very fine for cutting. 2 to 3 feet.

Inter-States new, improved, long-spurred Columbine

12 for \$2.00 5 for \$1.00 Postpaid

P78 This color photograph gives you a glimpse of the beauty of these Columbines (Aguilegia). They are even more beautiful in the garden as they nod gracefully in the breezes. The colors are so rich, so clear, so exquisitely lovely and they blend perfectly. They bring to your garden or a bouquet, a "fairy" touch that no other flower can give. The flowers are much larger than pictured, up to 3 inches across with spurs 4 to 5 inches long. We believe

these are the finest Columbines sold today, the result of many years of selection. They come up year after year, growing 2 to 3 feet tall and blooming so generously in the spring. They thrive in any ordinary soil and prefer a partially shaded spot where they are protected from the hot afternoon sun. We send you field-grown plants which bloomed last year and will bloom this season in your garden. You can plant them freely at this special price.

GOLDEN SHOWERS

P85 **Coreopsis**, Golden Shower—One of the best hardy new perennials in many years. The bright yellow star-like flowers, 1 to 1½ inches across, are produced continuously all summer, right through the hottest weather. The bright green, feathery foliage is very attractive in itself. Makes a neat, bushy plant 18 to 24 inches tall. A grand plant to brighten up a dull corner. Does well everywhere in full sun or part shade. Try it at our risk. If you are not delighted, select anything else you want to the same value. Postpaid.

New Superior Phlox

For long summer bloom, you simply cannot beat Phlox. Give them plenty of water and feed them about every three weeks with Ra-Pid-Gro (see page 49) and they will have gorgeous flowers for many weeks. Perfectly hardy, they will last for years. Plant them in groups of three or more for best effect. We have carefully selected these Phlox from many varieties and we consider that each one is the best of its color. The flowers of those shown on page 65 are just as large as those on this page. In fact all flowers are actually larger than pictured. We send you first quality, number one field-grown plants.

P511 Salmon Beauty—This wonderful new variety has created a sensation. The individual flowers, as large as a silver dollar, are an exquisite salmon-pink with contrasting white eye. The heads are large, a strong healthy grower that blooms all summer long.

P521 Progress—A superb new variety, lilac-blue with deeper eye, sometimes lighted with rays of white.

P522 San Antonio—This new variety has immense heads of ruby-red, a color so striking it stands out in any planting.

P. D. Williams

Inter-State Phlox will bloom this summer

P524 Charles Curtis—This new outstanding variety is the most brilliant Phlox we have ever seen. The color is a vivid sunset orange-red.

P525 Mary Louise—For purity of color, large size of individual flowers, immense heads, vigor and freedom of bloom, this variety is the best of all white Phlox.

P503 Prime Minister—A tall, stately grower with large heads of snow-white with a red eye. Vigorous and free blooming.

P513 P. D. Williams—The flowers are very large, many of them actually larger than a silver dollar. The color is an alluring pink with a deep eye.

P512 Pink Charm—All through the season this new Phlox is a wonderful sight with its great heads of bright pink with just a faint touch of scarlet.

P509 Starlight—The best of this color, a striking purple with white center. It adds a distinctive note to your perennial border

All six Phlox pictured on this page are just as large as those on page 64.

Plant Inter-State Lilies this Spring

Regal Lily

REGAL, AMERICA'S FAVORITE LILY

For Late Spring and Early Summer Bloom

B85 This is America's favorite hardy Lily. We sell them by the hundred thousand. The picture at the left does not begin to do justice to it. Many of you have some in your garden and yet you want more. They are useful in so many different spots. They have a distinctive beauty that is found in few flowers. Just plant them 7 or 8 inches deep in well-drained, ordinary soil, in a sunny or partially shaded location. They will come up year after year, multiplying and giving you more flowers each passing year. Blooms in June-July on stems 3 to 4 feet tall. After it is established it is nothing uncommon to have great clusters of 15, 20 or even 25 flowers on a stem. The exquisite flowers are fragrant, snow-white with a golden throat and tinged pink on the outside. All bulbs will bloom this summer. The larger bulbs will produce more flowers and are well worth the little extra cost. Our prices are low so you can plant them freely. You never get too many. Postpaid.

	Each	5 For	10 For	25 For
Large bulbs.....	40c	\$1.50	\$2.75	\$5.95
Medium bulbs.....	30c	1.15	2.00	4.35
Small bulbs.....	25c	.85	1.45	3.00

GLORIOUS CALLA LILIES

B70 Yellow Calla Lily—A great favorite for indoor bloom during the winter. It is also beautiful in the garden. But wait and do not plant until the ground warms up. Then plant it 5 to 6 inches deep in a well-drained spot. The rich yellow flowers and the glossy green foliage marked white, are very lovely. Dig in the fall before freezing and after the bulbs have rested awhile, you can pot them for indoor blooms. Postpaid.

6 for \$1.75, 3 for \$1.00, Each 40c.

SUNSET LILY

B74 Sunset Lily—This is not new but few people have it. It is almost "fool-proof," grows everywhere, in sun or part shade. The brilliant flowers come in mid-summer, a dozen or more on a stem, 4 to 5 feet tall. The petals are recurved, a glowing sunset-red, with golden base, dotted purple. Plant a clump of them in your garden. You will be well-pleased. Perfectly hardy, it comes up year after year. Postpaid.

6 for \$1.75, 3 for \$1.00, Each 40c.

Red Coral Lily

Yellow Calla Lily

RED CORAL LILY (TENUIFOLIUM)

B84 Their small, fragrant, bright scarlet flowers highlight the garden in late spring and early summer. Grows 18 inches or so tall and thrives everywhere. Plant a dozen or more. They are attractive anywhere and are especially fine for out-of-the-way nooks, not too shady, where larger flowers would be out of place. The bulbs are small but they are sure to bloom. Plant 5 or 6 inches deep. Perfectly hardy come up year after year. Postpaid.

12 for \$2.75, 6 for \$1.50, Each 35c

for Summer Garden Beauty!

PHILIPPINE LILY

For Late Summer and Fall Bloom

B83 Never since it was introduced a few years ago, has there been enough bulbs to supply the demand for this fine Lily. It is so easy to grow and sure to bloom. The lovely, fragrant white flowers are large, 7 to 8 inches long, on strong stems, 4 to 6 feet tall. Blooms for many weeks, from late summer to frost. Beautiful in the garden and fine for cutting. Plant them freely, they are so lovely.

6 for \$2.25 3 for \$1.25 Each 50c Postpaid

DREAM LILY

For Midsummer Bloom

B81 Another magnificent Lily that is almost identical with the Philippine but it blooms 4 to 5 weeks earlier. The lovely white flowers are just as large, just as fragrant, just as beautiful and produced just as freely. The stems are somewhat shorter, around 4 feet tall. Blooms between the Regal and Philippine, filling out the season so you can have lovely Lilies in the late spring, summer and fall.

RUBRUM LILY

B65 We are very happy to be able this spring to supply this marvelously beautiful Lily. Many think it the loveliest of all Lilies. The flowers are bright pink, edged white. They bloom in August-September on stems 3 to 4 feet tall. It is perfectly hardy. Just plant 8 inches deep and it will come up year after year, multiplying and increasing in beauty. We have just 15,000 of these bulbs, first come, first served.

3 for \$2.50 Each \$1.00 Postpaid

NEW DOUGLAS INGRAM

B72 Douglas Ingram—A new lily originated by the late Dr. David Griffith who was considered America's greatest bulb authority. Its color is tangerine red, shading deeper at the tip and boldly dotted black. There are 15 to 20 flowers on stems 4 to 5 feet tall. Blooms in early summer, and prefers partial shade. Plant 6 to 8 inches deep. Hardy, comes up year after year. We have just 1,000 of these. **Each 75c.** Postpaid.

**GIVE ACCENT TO YOUR GARDEN—
SPRING AND SUMMER**

A NEW MORDEN LYTHRUM *Carmine Prince*

P202 Morden Pink—This is also called "Carmine Prince" and it is one of the real outstanding new perennials. It makes a neat symmetrical plant about 3 feet tall, with graceful spikes of rosy-pink flowers, almost down to the ground. Blooms continuously all summer. Good for cutting, in fact the more you cut, the more it blooms. No plant is easier to grow. It thrives in dry soil or wet, in sun or part shade. Originating in Canada, it is perfectly hardy and can be planted from coast to coast and south to the gulf. Not bothered by insects or diseases. In the perennial border in small groups or a mass planting, it is a beauty spot. **POSTPAID.**

6 for \$2.15 3 for \$1.25 Each 50c

P203 Lythrum, The Beacon—This is similar to Morden Pink but it grows about a foot taller and the flowers are a deeper color, a rosy-red. It thrives everywhere, almost with no care at all. Blooms all summer. We think it one of our very best hardy perennials. **POSTPAID.**

3 for \$1.00, Each 40c

MERTENSIA, Bluebells

P209 Their blue and pink flowers are so attractive in early spring. Once planted, they come up year after year without any care. Grow in sun, part shade or full shade. Plant among the shrubs, in borders, in little nooks. **Postpaid.**

12 for \$2.50, 4 for \$1.00, Each 30c

TIGER FLOWER

Aztec Tiger Flower (Tigridia)

—The flowers are so strikingly beautiful that nothing in your garden will draw as much attention. Grows 24 inches tall. The blooms are huge, often 6 inches across. Each flower lasts but a day, opening at dawn, following the sun in its course, then passing at sunset. This goes on all through the summer. Dig the bulbs in the fall and store them just like Gladiolus.

ESTATE, The New, Hardy Easter Lily

6 for \$5.00

3 for \$2.65 Each \$1.00

B66 Each year we see many new flowers but seldom is a new flower introduced as sensational as we believe this will prove to be. Here is a Lily that not only is the finest of the greenhouse Easter Lilies, but IT IS HARDY SO CAN BE GROWN OUT-

DOORS. Planted this spring, it will bloom this summer, just following the Regal lilies. It will come up year after year, producing more and more of the lovely blooms. Grows 2½ to 3 feet tall. The flowers are large, fragrant and pure white, just like the florist's Easter Lilies for which you pay \$2.50 to \$5.00. The bulbs we send you came from the field of Estate Lilies pictured above. Those who want the newest, the best, will order them quickly. The supply is very limited. **Postpaid.**

LARGE FLOWERING *Cannas* FOR A GLORIOUS BORDER OR BED

PRESIDENT

Pictured above is a bed of President cannas with a border of Petunias. President is the most popular of all cannas. It has large trusses of wide petaled, rich crimson-scarlet flowers, deep green foliage and grows 4 feet tall.

No other flower will give as brilliant a display all summer and fall as a bed or border of cannas. We send you Big, Extra Fine bulbs, guaranteed to be the finest you ever received. These extra large bulbs will produce larger, better and more flowers. Plant them in the full sun in good soil when the ground warms up in late spring. Water freely in dry weather. Plant 18 inches apart each way.

COPPER GIANT

A magnificent new Canna with big trusses of large flowers. The color is a striking old rose tinged with burnished copper. The foliage is a rich green and makes a husky, vigorous plant 4½ feet tall that blooms constantly until frost.

KING MIDAS

This is the finest clear, bright yellow canna we have ever seen. Large flowers and large trusses, blooms right up to frost. Healthy green foliage and the plant grows 4 to 4½ feet tall. We consider it the finest yellow canna.

LOUIS CAYEUX

Another new Canna that we think is the finest bright pink ever introduced. Its color is distinct from all others. The individual flowers are broad petaled and very large and freely produced all through the season. Green foliage and grows 4 to 4½ feet tall.

INTER-STATE'S GUARANTEED-TO-GROW FLOWER SEEDS!

MARIGOLDS

Bloom July to Frost

166 Marigold, All-Double Harmony (15) — Charming, Scabiosa-like flowers with deep orange center petals flanked by wide, dark maroon-brown petals. Very free-flowering, especially in dry weather.

163 Marigold, Burpee Gold (30) — Gives an abundance of glorious deep orange double blooms, 3½ inches across. The long petals are loosely arranged. Blooms very early and entirely odorless.

164 Marigold French Dwarf Monarch Strain (12) — Double flowers in combinations of orange, bronze, yellow and mahogany come on compact plants. Free-flowering.

170 Marigold, Yellow Supreme (30) — Creamy yellow blossoms of the carnation flowered type.

165 Marigold, New Extra Early Hybrids (18) — The earliest of all the African type marigolds. A color range from bright orange to clear lemon on base branching plants producing a mass of color. An entirely new type Marigold.

MARIGOLD

SWEET PEAS

SWEET PEAS

For Early Beauty

233 Sweet Peas, Spencer Late Flowering Mixed — The flower that everybody loves. A choice variety of colors.

Sweet Pea, Early Large Flowering Spencers — The large, waved, Spencer type flowers that bloom fully one month earlier and over a much longer period than the old type. Gives an abundance of lovely cut flowers. Plant as early as possible for best results.

234 Finest Mixed.

235 Blue Bonnet, deep blue.

240 Red Supreme.

320 Sweet Peas, New Spring Flowering Mixed — A new strain of Sweet Peas especially fine because they stand lots of hot weather.

PERENNIAL SEEDS

Give Permanent Garden Beauty

215 Alyssum Saxatile (9) — An early flowering, brilliant golden yellow border and rock garden plant.

277 Columbine, Inter-State's Hybrids, Mixed (30) — The finest, long-spurred columbine with colors so rich and beautiful. A far superior strain and one you can enjoy year after year.

281 Hollyhocks, Dbl. Mixed (72) — Chater's choice strain, large double flowers of rose, maroon, pink, yellow, etc. A perennial.

282 Iceland Poppy, Imperial Jewels Mixed (20) — Beautifully frilled flowers and color tones almost limitless. A perennial on strong wiry stems and usually blooms the first year from seed.

283 Sweet Peas, Everlasting Mixed — The perennial Sweet Peas with the wax-like bloom. Remove seed pods for a more continuous bloom.

PETUNIAS

LARKSPUR

Tall Spikes of Graceful Beauty

158 **Larkspur, Annual Mixed (30)**—One of the finest annuals, ideal for both garden color and cutting. Gives a more continuous bloom if the faded blossoms are cut off.

Larkspur, Giant Imperial (30)—An ideal type for cutting with long flower stems, branching from the base. Your choice of the following.

- 160A **Blue Spire**—Deep blue.
- 160B **Carmine King**—Carmine.
- 160D **White King**—Pure white.
- 160E **All Colors Mixed.**

304 **Larkspur, Rosalind (40)**—A new color in Larkspur, rose with just enough salmon to create a most pleasing shade of rose-pink. Base branching, practically non-shattering, excellent for cutting.

LARKSPUR, Annual Mixed

NASTURTIUMS

Thrive in the poorest of soil

172 **Nasturtium, Dwarf Mixed (10)**—The most popular dwarf annual, easy to grow in poor soil, and blooms for weeks. In rich colors, fine for beds and borders.

173 **Nasturtium, Tall Mixed**—A choice mixture of all the newer and more colorful types.

175 **Nasturtium, Double Glorious Gleam Hybrids**—Large, double, sweet-scented blooms in striking colors.

174 **Nasturtium, Double Golden Gleam**—Fragrant, golden yellow flowers. An original Gold Medal Winner and still one of the most widely planted of all new flowers.

SCABIOSA

Easy to grow, ideal for cutting

316 **Scabiosa, Giant Rosette (36)**—A glorious new Scabiosa color, a deep, lovely rose, with extra large flowers on long stems which are fine for cutting.

315 **Scabiosa, Blue Moon (36)**—An entirely new type of Scabiosa with broad, wavy petals of a rich deep lavender blue. Long, wiry stems ideal for cutting.

Scabiosa, Mourning Bride (30)—Long stems and cheerful colors make these ideal for cutting. Long lasting in water and bloom July until frost. Very easily grown.

- 214 **Finest Mixed**, lovely colors.
- 215 **Black Prince**, purple.
- 216 **Blue Cockade**, deep blue.
- 218 **Peach Blossom**, peach pink.
- 219 **Loveliness**, salmon rose.
- 221 **Shasta Improved**, white.
- 222 **Yellow**, sulphur yellow.

ANNUAL VINES

Decorative

289 **Gourds, Ornamental Mixed**—This special mixture of the large and small ornamental varieties is very interesting.

287 **Cardinal Climber, Ipomea Hyb.**—A mass of fiery red flowers from mid-summer until frost. Everybody admires this strong and rapid growing annual vine.

291 **Morning Glory, Giant Japanese Mixed**—Large flowers and gay colors that you will enjoy. Like poor soil and full sun.

810 MORNING GLORY VINE SPECIAL

- 1 **Imp. Heavenly Blue**
- 1 **Pearly Gates**
- 1 **Scarlett O'Hara**

All 3 for just 25c
POSTPAID

MORNING GLORY, Heavenly Blue

292 **Morning Glory, Imp. Heavenly Blue**—Clarke's Strain. The large, lovely, true-blue flowers with a lighter throat give a mass of beauty. Fine for trellis or arches. A coarse gravelly soil and a southern exposure gives an abundance of morning bloom until frost.

293 **Morning Glory, Pearly Gates**—Silver Medal Winner in 1942 All-America Selections. The flowers are a lovely lustrous white with creamy shading deep in the throat. They average 4½ inches across. Vines are covered with bloom from mid-summer to frost. A wonderful companion for Heavenly Blue.

306 **Morning Glory, Scarlett O'Hara**—The All-America GOLD MEDAL Winner that has created so much interest. The rich, wine-red flowers of good size are freely produced and last longer.

307 **Morning Glory, Cornell**—A new, annual climber with flowers of intense red with pure white border, as large in size as Heavenly Blue. Makes a rapid growth.

103 African Daisy, Hybrids Mixed (15)—Compact, bushy plants with white, orange, gold and salmon blossoms from July to October. Very fine for cutting.

107 Alyssum Procumbens, Carpet of Snow (4)—The dwarf, white, edging plant that is so desirable. Blooms all summer and fall. Each plant is a compact mass of snow-white blossoms.

122 Alyssum, Violet Queen (6)—A new dwarf compact variety bearing beautiful bright violet flowers all summer and fall. It is a pleasing contrast to the white flowering alyssums.

118 Bachelor Button, Double Mixed (20)—An abundance of double, colorful flowers from July until frost. Fine for cutting.

119 Bachelor Button, Jubilee Gem (12)—A dwarf, compact plant of bright green. A delightful background for the double, dark blue flowers.

123 Calendula, Sunshine (18)—The large buttercup-yellow flowers bloom over a long period and are excellent for cutting.

124 Calendula, Campfire (24)—The large, dark orange flowers with a scarlet sheen are very attractive.

125 Calendula, Finest Double Mixed (18)—The old fashioned, free-flowering Pot Marigold of yellow and orange.

127 Campanula, Cup and Saucer, Canterbury Bell (20)—An easily grown biennial that gives a profusion of blue, rose, and white flowers.

129 Canterbury Bell, Annual Mixed (24)—Blue, pink, rose, violet, and white flowers in late summer and autumn. A fine border flower.

130 Carnation, Chabaud's Giant Imp. (16)—Our most popular early flowering clove-scented carnation. The robust, long-stemmed plants give continuous bloom.

131 Castor Bean, Ricinus (120)—Tall-growing background plant with ornamental foliage. Useful for screening alleys and unsightly places.

136 Cockscomb, Celosia Cristata (30)—The velvety-red heads of this old fashioned celosia add color to the garden.

139 Cosmos, Sensation Mixed (45)—Immense pink and white blooms are truly a sensation, and are a great favorite for cutting.

141 Cosmos, Mam. Early Flowering Mixed (48)—The large, single flowers of red, pink, and white make a lovely showing from midsummer until frost.

303 Dahlia, New Dwarf Hybrids (20)—This new strain of Dahlias is selected to give a higher percentage of true doubles and a much wider range of colors.

145 Dianthus, Pinks, Heddewigi Dbl. Mixed (12)—The freely-produced flowers of crimson, purple, pink, and white are fine for cutting.

148 Four O'Clocks, Marvel of Peru (24)—Flowers of red, yellow, lilac and white. The glossy foliage and profuse bloom make it an attractive border plant from July until frost.

154 Gypsophila, Annual Baby's Breath (15)—This improved London Market strain gives an abundance of large, pure white flowers. Make several plantings for continuous bloom.

182 Painted Daisies, Finest Mixed (18)—The annual Chrysanthemum is easily grown and loved by all. Early blooms, choice colors.

183 Pansy, Giant Superb Mixed (6)—A large flowering strain in a beautiful color range.

308 Pansy, Super Swiss Giants (6)—For size, color, and free blooming qualities this garden favorite is unsurpassed.

196 Poppies, American Legion (30)—Brilliant scarlet that brightens your flower garden. The best red Poppy.

205 Poppies, Eschscholtzia, Calif. Mixed (12)—A free blooming annual rich in crimson, pink, and orange-scarlet shades. Very showy.

209 Portulaca, Rose Moss, Dbl. Mixed (4)—Our unsurpassed, choice doubles. Delicate green foliage simply covered all season with bright colored flowers. The flowers resemble small roses and in dry weather are at their best.

213 Salvia, Farinacea, Blue Bedder (36)—Sturdy plants with tall spikes of lovely blue flowers. Fine for background, beds and borders.

225 Snapdragon, New Calif. Rust-proof (24)—The finest color range of all the Rust Resistant Mixtures. Beautiful in beds and fine for cutting.

226 Snapdragon, Super Giants, Rust-proof (30)—A mixture of our own selection, taller in habit than the California type and bearing larger blossoms.

228 Strawflowers, Everlastings, Mixed (20)—Our own collection of many kinds especially selected for your winter and decorative bouquets.

243 Sweet William, Single Mixed (18)—Pink, crimson, scarlet and white blooms in early spring.

248 Verbena, Giant Hybrids (10)—Fine for borders, beds, porch boxes and among tall growing plants like Lilies. Bloom all summer and fall. All colors mixed.

½ Lb. for 24c; 1 Lb. for 43c

One packet of Bush Beans will plant 25 feet and 1 pound 150 feet. Make successive plantings of bush beans and have fresh beans all summer and fall.

DWARF GREEN POD BUSH BEANS

***401 Burpee's Stringless Green Pod** (50 days)—This is, by far, our most popular bush bean. It produces long, round meaty pods that are always tender and absolutely stringless even when full grown. It cannot be beat for table use or canning. Its quality, productiveness and tenderness have never been surpassed. We believe that it will produce more than any other variety and produce for a longer period of time.

400 Keystoneian (53 days)—This new stringless, green bean won the All-America Selection. It is excellent for any purpose, canning or freezing. Similar to the Stringless Green Pod with a long, straight, tender pod of finest flavor.

402 Plentiful (49 days)—A new green bean that won All-America Award in 1939. Long, thick, meaty, flat pods, absolutely stringless and excellent quality. Produces over a very long season.

***403 Tendergreen** (53 days)—A new green bean so tender that it fairly melts in your mouth. Absolutely stringless, very highest quality and productive. Fine for table use and canning and best of all for freezing. All who plant it are enthusiastic.

405 Stringless Red Valentine (52 days)—This round stringless green bean is a dependable bearer of enormous crops. Tender and stringless.

DWARF WAX POD BEANS

***406 Brittle Wax** (54 days)—This is our best and most popular wax bean. Superb quality, very early and very productive. The long, round pods are perfectly stringless at all times, very tender, light yellow. Many think this the finest quality of all beans, wax or green. Easy to grow as it is blight resistant and stands dry weather.

408 Pencil Pod Black Wax (53 days)—This popular wax bean has long golden-yellow, tender, stringless curved pods.

407 Top Notch Golden Wax (50 days)—Pods are deep yellow, straight, thick, flat, stringless and fine quality. Productive, rust-proof. Fine for canning.

POLE BEANS

413 Kentucky Wonder (65 days)—Most widely planted pole bean. Bears early with clusters of long, curved green pods with tasty distinctive flavor. The more you pick them, the more they bear, until frost. Light brown seeds.

415 King of the Garden (86 days)—The finest pole lima. Mammoth size pods, well-filled, are produced from the bottom of the vine up, until frost. White beans when dry.

BUSH LIMA BEANS

411 Burpee's Improved Bush Lima (75 days)—A large, meaty, delicious Lima. Long, broad, tender flat pods. Very productive, it produces right up to frost. When dry the beans are large, plump, white with a light greenish tinge.

416 Cangreen (68 days)—A new Lima similar to Henderson's except the beans are a little larger and when dry they remain an attractive green color. Extremely productive, all season. If you plan to can some Limas, be sure and plant some Cangreen because the beans look fine in the jar and taste as good as they look.

412 Henderson's Baby Lima (65 days)—A tremendous yielder, a short row will give you these delicious butter beans right up to frost. The green pods are about 3 inches long. The beans are small and creamy-white when dry.

FIELD BEANS

409 Improved Navy (85 days)—The small white, soup bean. Plant some for your winter's supply for soup and baking.

410 Red Kidney (94 days)—The dark red bean used in chili, soups, etc.

905 BEAN SPECIAL

BEETS Contain vitamins A, B₁, C, G, also minerals.
The Beet greens contain Iron, calcium, phosphorus, A, C, and G.

One Pkt. will sow 20 to 25 feet; one Oz. 75 to 100 feet.

***420 Detroit Dark Red Improved** (61 days)—The most popular beet for the home garden and canning. Globe shaped, very smooth, a deep oxblood-red color. Very tender and sweet at all stages of growth, without a trace of woodiness.

422 Early Blood Turnip (60 days)—A good dependable midseason variety. Nearly round, deep red with brighter red zones. High quality.

***421 Crosby's Egyptian** (55 days)—Extra early, semi-flat, very tender and sweet. Flesh is distinct dark red and keeps its color in cooking. Free from woodiness. Fine for the first beets from your garden.

POSTPAID PRICES ON ALL BEETS

Pkt. 10c	1/2 Oz. 18c
1 Oz. 30c	1/4 Lb. 85c

BEETS, Detroit Dark Red

CABBAGE Contains vitamins A, B₁, C, G, P.P., Calcium, Iron.

1 Pkt. will produce 100 or more plants; 1 Oz. 2500 plants.

434 Early Flat Dutch (75 days)—An early, unusually fine, large, solid, flat-headed type. Fine quality, 5 to 6 pound heads. Keeps well. **Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 43c**

435 Danish Ballhead (100 days)—Our most popular late cabbage, producing round compact heads weighing from 7 to 9 pounds. Excellent keeper. Very crisp and tender. Fine for kraut. **Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c**

436 Early Jersey Wakefield (60 days)—An extra early variety with cone-shaped heads, 2 to 3 pounds each. **Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 40c**

***438 Marion Market** (75 days)—A Yellows Resistant strain of Copenhagen Market. A sure heading, main crop variety. Our most popular cabbage. Excellent quality, has short stems and is good for early kraut and all cooking purposes. Weighs 4 to 5 pounds. **Pkt. 10c; 1/2 Oz. 35c; 1 Oz. 60c**

439 Premium Late Flat Dutch (100 days)—Very popular large, flat headed winter cabbage. Fine quality, solid, good keeper and fine for kraut. Heads weigh from 13 to 15 pounds. **Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c**

437 Golden Acre (65 days)—An extra early garden variety with round firm heads weighing about 4 pounds each. Resists bursting. **Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c**

CABBAGE, Marian Market

CARROTS Contain vitamins A, B₁, C, G, P.P., Calcium, Phosphorus, Iron.

One Pkt. will sow 35 feet; One Oz. 200 feet.

***426 Improved Chantenay** (70 days)—The outstanding favorite with people who grow carrots in their garden. This is a very choice strain producing large, thick, six-inch orange roots, very tender, high quality and free from hard core. Very heavy yielder. **Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c**

430 Oxheart (72 days)—Especially good for rather stiff, hard soil because the roots are short and stubby. A good keeper. Bright orange, tender and sweet. **Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c**

***427 Coreless Nantes** (68 days)—We especially recommend this for the home garden because of its extra fine quality. The roots are deep orange, very tender and sweet from 6 to 7 inches long and the same size from top to bottom. **Pkt. 10c; 1/2 Oz. 30c; 1 Oz. 50c**

429 Danvers Half Long (75 days)—Very productive. Keeps all winter. Does well in all classes of soil. Smooth, deep orange roots, about 7 inches long, tapering to a blunt point. Sweet, tender and crisp. **Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c**

CARROTS, Imp. Chantenay

CELERY Contains vitamins A, B₁, C, G, Calcium, Iron, Phosphorus.

432 Giant Pascal (140 days)—Large late winter variety, delicious flavor. Easily blanched by trenching to a beautiful creamy white. **Pkt. 10c; 1/2 Oz. 44c**

431 Golden Self Blanching (118 days)—Very desirable early celery. Stalk is thick, solid, medium long and free from pithiness. Blanching itself to a golden yellow. **Pkt. 10c; 1/2 Oz. 44c**

K23 Nitragin Only 10c

Be sure to inoculate your Beans, Peas, and Sweet Pea seeds with Nitragin. It greatly increases the yield. A garden size packet costs only 10c postpaid and is enough to treat 3 or 4 pounds of all 3 seeds.

SWEET CORN

Contains vitamins B₁, C, Phosphorus, Iron.
(Also Vitamins A and G in yellow sweet corn)

One packet will sow 60 feet or more; 1 Lb. 400 feet.

***450 Tendermost** (83 days)—The most tender of all our yellow hybrids, giant size kernels of sugary-sweet goodness with a tender hull. Very large ears averaging nine inches in length with 14 to 16 rows of regular kernels. A high-yielder that stays sweet and tender on the stalk for nearly two weeks. Good resistance to smut and ear worm.

Large Pkt. 10c; 1/2 Lb. 38c; 1 Lb. 70c

***443 Aristogold Bantam Evergreen** (87 days)—This is the largest, high quality yellow hybrid sweet corn we have ever seen. About a week later than Golden Cross, the ears are a little larger, equally fine quality and even more productive. The two together make a great team. Stands the heat, drought and wind.

Large Pkt. 10c; 1/2 Lb. 38c; 1 Lb. 70c

***444 Earligold** (72 days)—Plant this for the first sweet corn of the summer. It is the earliest yellow hybrid and the ears have 12 to 16 rows, delicious, tender and sweet. You will want more next year.

Large Pkt. 10c; 1/2 Lb. 38c; 1 Lb. 70c

447 Golden Bantam (78 days)—The favorite yellow sweet corn for many years. Very early, small ears, tender and sweet.

Large Pkt. 10c; 1/2 Lb. 20c; 1 Lb. 35c

***445 Golden Cross Bantam** (82 days)—Our most popular yellow hybrid, producing 12 rowed ears, 8 inches long. It is about 3 times as productive as Golden Bantam. It is also resistant to bacterial wilt which often causes failure with early yellow corn. We honestly believe that once you grow this corn, you will always want it. The kernels are so tender and sweet they fairly melt in your mouth.

Large Pkt. 10c; 1/2 Lb. 30c; 1 Lb. 55c

445A Hybrid Blends—A special blend of all the finer yellow hybrids to give you an all season supply with only one planting. It contains early, medium, and late varieties. Thus all your sweet corn does not come on at once, and you can enjoy sweet corn all season long from just one planting.

Large Pkt. 10c; 1/2 Lb. 34c; 1 Lb. 60c.

449 Stowell's Evergreen (94 days)—The standard main crop white sweet corn. Large ears, sweet and stays tender a long time. Especially fine for canning.

Large Pkt. 10c; 1/2 Lb. 22c; 1 Lb. 36c.

***446 Tendergold** (75 days)—A very fine yellow hybrid corn that is sweet, tender and of finest quality. Matures a few days earlier than Golden Bantam. Much more productive and holds its quality two to three days longer than other corns. The golden ears are 12 rowed about 8 inches long.

Large Pkt. 10c; 1/2 Lb. 33c; 1 Lb. 60c.

448 Country Gentleman (90 days)—The late white corn with long, deep grained kernels irregularly arranged. Often called the shoe-peg type. A heavy yielder.

Large Pkt. 10c; 1/2 Lb. 22c; 1 Lb. 39c.

CUCUMBERS

Contain vitamins A, B₁, C, G, Phosphorus, Iron.

One Packet will plant 15 hills; one Ounce, 65 to 70 hills.

452 Chicago Pickle (58 days)—Very popular early variety. Vigorous grower and very productive. Pickles are uniform size, medium green and square ended. Pkt. 10c; 1/2 Oz. 16c; 1 Oz. 27c.

***453 Improved Long Green** (62 days)—The best and most popular all-purpose cucumber, fine for slicing and pickling. It does well in every section, producing heavily when other kinds give up. It is medium dark green, crisp with few seeds. Pkt. 10c; 1/2 Oz. 18c; 1 Oz. 30c.

***454 Select National Pickling** (55 days)—Our most popular pickling type. Of uniform size and color, as firm after pickling as before. Very early and enormously productive. Even size, straight, with square blunt ends, deep green color. Pkt. 10c; 1/2 Oz. 16c; 1 Oz. 27c.

456 Straight Eight (58 days)—A new white spine type, very productive, long straight fruits of an ideal green color. Averages about 8 inches long. Pkt. 10c; 1/2 Oz. 20c; 1 Oz. 35c.

LETTUCE

Contains vitamins A, B₁, C, G, Calcium, Phosphorus, Iron.

One Packet of seed will sow 40 to 50 feet, one Ounce, 200 feet.

***462 Black Seeded Simpson** (46 days)—Our most popular loose leaf lettuce. The broad, frilled light green leaves are crisp, tender and of excellent quality. It is very early, does well everywhere. Pkt. 10c; 1 Oz. 23c.

463 Early Curled Simpson (45 days)—Large, light green ruffled leaves make this a fine home garden lettuce. Crisp and sweet. Pkt. 10c; 1 Oz. 23c.

***464 Early Prizehead** (45 days)—An early, non-heading home garden variety. The crimped, crisp, tender leaves are tinged brownish red. Pkt. 10c; 1 Oz. 23c.

466 Iceberg (82 days)—Large, solid heads, white inside, crisp and of excellent quality. A popular head lettuce. Pkt. 10c; 1/2 Oz. 20c.

467 Imperial No. 44 (70 days)—If you have been unable to grow head lettuce, try this variety. It is early and will stand lots of heat. The heads are compact and medium large. Pkt. 10c; 1/2 Oz. 20c.

ONION, Giant Yel. Sweet Spanish

PEPPER

MUSKMELON (Cantaloupe) Contains vitamins A, B₁, C, G, and minerals.

One Packet will sow 15 hills; 1 Ounce 60 hills.

470 Hales Best (87 days)—Thick, tender flesh is deep salmon and richly flavored. Oval fruits weigh 4 pounds.

472 Honey Rock (85 days)—One of the finest for our mid-west home gardens. The fruits weigh about 3 pounds, and the flavor is ideal. Thick orange flesh.

***471 Hearts of Gold** (88 days)—The salmon-orange flesh is very thick and good right out of the rind. The fruits are tender, juicy and very sweet. This melon weighs about 4 pounds. It is the most popular muskmelon for general use.

474 Rocky Ford Netted Gem (95 days)—A fine home and market garden melon, weighing about 2½ pounds. Uniform size, nearly round thick green flesh with a spicy flavor.

Prices on all Muskmelon Pkt. 10c; 1 Oz. 25c ¼ Lb. 75c.

WATERMELON Contains vitamins A, B₁, C, G, and minerals.

One Packet will sow 10 hills; 1 ounce 30 hills.

***477 Imp. Kleckley Sweet No. 6** (87 days)—Many consider this the best watermelon. Weighs about 35 pounds, white seeds. Has bright red flesh which is crisp, tender and very sweet. We especially recommend this wilt resistant strain.

***480 Early Kansas Sweet** (85 days)—A very large medium early melon, fine for home gardens. Thin green-striped rind, bright red flesh of very fine sweet flavor. Seeds are reddish-brown. Weighs about 40 pounds. This is one of our finest melons and we recommend it to you.

475 Northern Sweet (76 days)—A very early, round melon weighing 12 pounds, having a thin rind and deep red crisp flesh. An ideal ice-box melon.

478 Stone Mountain (86 days)—The large, round, solid dark green melons are very popular. Ripens medium early and has a very delicious flavor with lots of heart. Weighs 30 to 40 pounds.

Prices on all Watermelon Pkt. 10c; 1 Oz. 15c; ¼ Lb. 45c.

ONIONS Contain B₁, C, G, Calcium, Phosphorus, Iron.

483 Southport White Globe (115 days)—The best and most popular white onion. The bulbs are medium large, crisp, mild and have snowy white flesh. A good keeper and a heavy yielder.

Pkt. 10c; ½ Oz. 45c; 1 Oz. 80c.

485 Yellow Globe Danvers (111 days)—White flesh, crisp and very fine quality. Firm and solid, this is the best keeping yellow onion. Very productive.

Pkt. 10c; ½ Oz. 45c; 1 Oz. 80c.

One Packet will sow 12 to 15 feet; 1 Ounce 200 feet.

482 Giant Yellow Sweet Spanish (112 days)—The most popular yellow onion. Very large with mild crisp white flesh.

Pkt. 10c; ½ Oz. 45c; 1 Oz. 80c.

481 Large Red Weathersfield (110 days)—The favorite red onion. Flat, solid medium large bulbs that keep well.

Pkt. 10c; ½ Oz. 40c; 1 Oz. 75c.

PEPPERS Contain A, C, B₁, and G; also Calcium and Iron.

500 Long Red Cayenne (70 days)—A favorite hot sort used chiefly for pickling, canning and drying. **Pkt. 10c; ½ Oz. 30c.**

497 Ruby King (68 days)—A popular variety for home gardens. Bears dark green fruits, about 4½ to 6 inches long, which turn a ruby red color when ripe. Fruits are about 3 inches thick. One of the best types for pickles. **Pkt. 10c; ½ Oz. 20c.**

499 Sunnybrook Pimiento (72 days)—Fine for home gardens, excellent flavor. Fruits are 2½ to 3 inches long and 3 inches in diameter. They are tomato-shaped, smooth with thick, mild flesh. **Pkt. 10c; ½ Oz. 30c.**

496 California Wonder (70 days)—A good stuffing pepper—large size, almost square shape, very thick walls, sweet, tender and good flavor. Smooth glossy green, becoming red when ripe. **Pkt. 10c; ½ Oz. 25c.**

501 Hungarian Long Hot Banana (60 days)—A very prolific, early and hot pepper. The long, slender fruits are pale green, then turn red. **Pkt. 10c; ½ Oz. 40c.**

498 King of the North (57 days)—The earliest large sweet pepper. Dark green, thick fruits with mild sweet flesh. Turns red when ripe. **Pkt. 10c; ½ Oz. 25c.**

PARSNIPS

Contain B₁, C, Calcium, Phosphorus, Iron.

One Packet will sow about 40 feet; 1 Oz. 200 feet.

488 Hollow Crown (125 days)—The most popular variety. Smooth, white skin with rich, tender, sweet flesh. Long, tapering roots about 12 inches long. They can be left in the ground over winter. Dig them in early spring before growth starts. **Pkt. 10c; 1 Oz. 20c.**

PEANUTS

Plant some this spring. You will be astonished at how much they yield.

489 Peanuts, Jumbo—The large standard roasting peanut. Stands heat and drought. **Large Pkt. 10c; ½ Lb. 25c; 1 Lb. 45c.**

489A Peanuts, Early Spanish—The pods are smaller than the Jumbo but they will mature as far north as Minnesota. Very heavy producer.

Large Pkt. 10c; ½ Lb. 25c; 1 Lb. 45c.

PEAS Contain vitamins A, B₁, C, G, P.P., calcium, Phosphorus, Iron.

One Pkt. will sow 15 feet; 1 Lb., 100 feet.

All of these Peas grow only around 18 inches tall and do not have to be supported. When you order Peas be sure and include 10c for a packet of Nitratin to inoculate the Pea and Bean seed. 1 Pkt. is enough for 3 to 4 pounds of seed.

***492 American Wonder** (60 days)—A popular early pea. A good bearer of tender, sweet flavored peas. Grow only 12 to 15 inches tall.

***490 New Alaska** (54 days)—This is the kind to plant for those first Peas from your garden. This is an improved strain with larger pods, better flavor and very productive. Smooth seeded, it can be planted very early.

***491 Fillbasket** (60 days)—One of the earliest large podded semi-wrinkled peas. Sturdy vines bear an abundance of dark green pods, filled with good quality peas.

***495 Little Marvel** (62 days)—Our most popular wrinkled variety and the most satisfactory kind in the average home garden. It is very hardy and can be planted almost as early as New Alaska. Very productive, the pods are filled from end to end with the delicious, tender peas.

494 Laxton's Progress (62 days)—The earliest and heaviest yielding of the large podded peas. The pods are very large, with big, plump peas of the finest flavor. Very popular.

Inter-State's Pea Special

We have selected 3 varieties which will mature in succession and furnish a continuous supply over a long season.

New Alaska—Earliest of all peas.

Fillbasket—Midseason, bearing large, wrinkled, tender peas.

Little Marvel—The best and most popular of all peas. Very productive.

909 Lg. Pkt. of ea. Postpaid...**only 25c**

910 ½ Lb. of each. Postpaid...**only 55c**

911 1 Lb. of each. Postpaid...**only 95c**

RADISHES Contain Vitamin C and minerals.

One Packet will sow 30 feet; 1 Ounce, 100 feet.

Sow every 2 weeks for a continuous supply of fresh radishes all season.

***504 Early Scarlet Globe** (22 days)—By far the most popular real early radish. Bright scarlet, olive-shaped, crisp and tender. **Pkt. 10c; 1 Oz. 15c.**

505 French Breakfast (24 days)—Early oblong shaped radish, scarlet with white tip. **Pkt. 10c; 1 Oz. 15c.**

***507 New Crimson Giant** (28 days)—A rather new red radish that is fast becoming the most popular of all radishes. It is a large round radish being about 1½ inches in diameter when fully grown. Deep crimson in color with white flesh that is very crisp and tender, and stays that way longer than any other red radish we know. Do not sow seed too thickly. **Pkt. 10c; 1 Oz. 15c.**

***508 White Icicle** (27 days)—Everybody likes this long, snow-white radish. It is very mild, crisp and tender and stays that way for a long time. **Pkt. 10c; 1 Oz. 15c.**

SQUASH Contains vitamins A, B₁ and C, also Calcium and Iron.

528 Acorn, Table Queen (58 days)—Weighs about 1 pound, just the right size to cut in half for serving. Dark green hard shell, rich orange-yellow flesh, fine flavor. Large producer. **Pkt. 10c; 1 Oz. 20c.**

527 Chicago Warty Hubbard (115 days)—Dark green, warty, and deep orange-yellow flesh. Weighs about 16 pounds. The best winter squash. **Pkt. 10c; 1 Oz. 23c.**

530 Early Straightneck (55 days)—Heavily warted, thick necked, straight lemon-yellow fruit with light yellow flesh. Weighs about 3 pounds. **Pkt. 10c; 1 Oz. 20c.**

531 Striped Cushaw (115 days)—Fruits are crooknecked, very large and irregularly green striped. Thick, sweet, light yellow flesh. Very prolific. **Pkt. 10c; 1 Oz. 20c.**

PARSLEY

Contains Vitamin A and iron.

487 Moss Curled (72 days)—The most desirable for garnishing and decorative purposes. Dark green, finely cut curled leaves. Very fast growing. Cut it and it comes up again. Sow early. **Pkt. 10c; 1 Oz. 23c.**

PUMPKIN

One Pkt. will sow 8 hills; 1 Ounce 24 hills.

502 Connecticut Field (120 days)—Heaviest producer. Big, yellow pumpkins that weigh 15 to 25 pounds. Thick, sweet, fine-grained flesh. **Pkt. 10c; 1 Oz. 15c; ¼ Lb. 35c; 1 Lb. \$1.00.**

503 Small Sugar Pie (115 days)—Weigh 4 pounds. What delicious pies you get from its rich golden-orange flesh, thick, sweet, finest flavor. **Packet 10c; 1 Oz. 15c; ¼ Lb. 42c; 1 Lb. \$1.25.**

Little Marvel

New Crimson Giant

White Icicle

Moss Curled Parsley

Small Sugar Pie

TOMATOES

Contain vitamins A, B₁, C, G, P. P., and minerals

514 Earliana (66 days)—A widely planted extra early variety. Medium size, bright red fruits. **Pkt. 10c; ½ Oz. 30c; 1 Oz. 50c.**

517 Firesteel (65 days)—Be sure and plant some of this new variety, especially if you live here in the central west. It stands lots of heat and drought and bears when the others fail. Besides that it is very early. The fruits are medium large, solid, smooth, attractive red color, very good flavor and produced in tremendous quantities. A great tomato. Very fine for canning and tomato juice. **Pkt. 10c.**

***519 Marglobe** (77 days)—A heavy yielder of large, smooth, deep red, globe-shaped tomato with thick, firm meat. Fine for canning and slicing. Resistant to wilt and nail-head rust. **Pkt. 10c; ½ Oz. 20c; 1 Oz. 30c.**

518 New Stone (86 days)—A favorite for home gardens and canning. Productive. Fruits are large, smooth, solid, bright scarlet. **Pkt. 10c; ½ Oz. 20c; 1 Oz. 35c.**

516 Giant Ponderosa (88 days)—Our selected strain produces fruit of immense size and smoother than most others. Fruits have few seeds, are very solid and have a fine flavor. **Pkt. 10c; ½ Oz. 35c; 1 Oz. 55c.**

522 Red Head (76 days)—A round, smooth, medium early variety that does unusually well. Firm, bright red flesh, fine for slicing and canning. **Pkt. 10c; ½ Oz. 25c; 1 Oz. 40c.**

***523 Rutgers** (77 days)—Most widely planted of all tomatoes. Bright scarlet, meaty fruits are fine for slicing and canning. Ripens from the inside out. Fine quality. Very heavy producer. Resistant to wilt and nail-head rust. **Pkt. 10c; ½ Oz. 20c; 1 Oz. 35c.**

524 Jubilee (72 days)—A new and different tomato that should have a place in your garden. The large orange-yellow skinned fruits are a novel in appearance. It has small seed cavities and a non-acid wonderful flavor. **Pkt. 10c; ½ Oz. 75c.**

TURNIPS

Contain vitamins C and Calcium. Turnip top greens contain A, B₁, C, G, P.P., Calcium, Phosphorus, Iron.

One Packet sows 40 feet, 1 Oz. 200 ft. To get largest yield, broadcast turnip seed thinly instead of planting in rows.

533 Purple Top Strap Leaf—Flat, medium sized roots, purple topped, fine grained and mild. **Pkt. 10c; 1 Oz. 16c.**

***534 Purple Top White Globe**—Most widely planted turnip. Globe-shaped and white, tender flesh. Very mild in flavor. **Pkt. 10c; 1 Oz. 16c.**

SPINACH

Contains vitamins A, B₁, C, G, P.P., Calcium, Phosphorus, Iron.

One Packet will sow 35 feet, 1 ounce will sow 100 feet.

513 Mustard Spinach, Tendergreen (25 days)—This green combines the flavors of mustard and spinach. Very prolific, it produces 6 or 7 crops a year. **Pkt. 10c; 1 Oz. 20c.**

***511 Nobel's Giant Thick Leaf** (43 days)—Has large dark green crimped leaves, and one of the heaviest yielders. Does not go to seed early. **Pkt. 10c; 1 Oz. 16c; ¼ Lb. 50c.**

512 Savoy Bloomsdale (40 days)—Large, curled, deep green leaves. Plant real early and enjoy early greens. **Pkt. 10c; 1 Oz. 20c; ¼ Lb. 55c.**

POP CORN

450 White Hull-less—Most popular white pop corn. Small, short ears. Pops snow-white, absolutely without hulls, very fine quality. **Pkt. 10c; ½ Lb. 25c; 1 Lb. 45c.**

451 South American Jumbo—This is the yellow pop corn that pops to such enormous size, creamy yellow color. Good yielder, usually 2 to 3 ears on a stalk, the ears 6 to 7 inches long. **Pkt. 10c; ½ Lb. 20c; 1 Lb. 35c.**

USEFUL VEGETABLES TO ROUND OUT YOUR GARDEN

564 Broccoli, Italian Green Sprouting—Tender tops and flower shoots used for greens. Contains A, B₁, C, G, Calcium, Iron and Phosphorus. **Pkt. 10c.**

563 Brussel Sprouts, Long Island—Thickly set stems with solid cabbage-like balls. Contains A, B₁, C, Calcium, Phosphorus and Iron. **Pkt. 10c.**

433 Cauliflower, Early Snowball—The most widely planted early variety. Compact snow-white heads. A fine home garden variety. **Pkt. 10c.**

567 Collards—A type of cabbage, used extensively for greens. Contains A, B₁, C, G, PP, Calcium, Iron and Phosphorus. **Pkt. 10c.**

457 Dill—The common dill pickle herb. **Pkt. 10c.**

458 Egg Plant, Black Beauty—The thick smooth rich purple fruits are very early. **Pkt. 10c.**

459 Endive, Green Curled—Delicious for autumn and winter salads. Frost improves its quality and flavor. Contains A, C, G, Calcium and Iron. **Pkt. 10c; 1 Oz. 22c.**

457A Gherkin, West Indies—Small oval shaped prickly cucumber, fine for small pickles. **Pkt. 10c; ½ Oz. 20c.**

460 Kale, Green Curled—Makes tasty greens for early fall, winter and spring. Contains A, B₁, C, G, PP, Calcium, Phosphorus and Iron. **Pkt. 10c.**

461 Kohlrabi, Early White—Best for home use, has mild, crisp and tender flesh, dwarf. **Pkt. 10c.**

468 Mustard, Giant Southern Curled—Long and wide leaves with curled edges for greens. Contains A, B₁, G, PP, Calcium, Phosphorus and Iron. **Pkt. 10c; 1 Oz. 18c.**

570 Okra, Dwarf Green—For soups. **Pkt. 10c.**

571 Rutabaga, Purple Top. **Pkt. 10c.**

525 Salsify, Mammoth Sandwich Island—A delicious, nutritious vegetable with a decided oyster flavor. Keeps in ground over winter but must be dug before spring growth starts. **Pkt. 10c.**

424 Stock Beet, Mammoth Long Red—The heaviest yielding of all stock beets, producing roots of enormous size. One of the finest feeds for poultry and stock. **Pkt. 10c; 1 Oz. 15c.**

***423 Swiss Chard, Lucullus**—The most commonly grown chard. It is of the beet family but is grown for its leaves only, which make very fine greens. **Pkt. 10c; 1 Oz. 20c.**

534 Turnip Top Greens—Extra rich in Vitamins and excellent for greens. Contains A, B₁, C, G, PP, Calcium, Phosphorus and Iron. **Pkt. 10c; 1 Oz. 16c.**

BIG FULL SIZE PACKETS, HIGHEST QUALITY, GUARANTEED TO GROW

These are our regular large full-size packets. They are the best, the most productive, the best flavored, the most popular varieties. Full planting instructions printed on every packet. To have a good garden, you must have good seeds. Make successive plantings

so you will have fresh vegetables all through the season. Mail your order early for this collection and have it on hand when you are ready to make a garden. Show this to your neighbors, they might want to order a collection too.

PLEASE NOTE—This collection is made up in advance and cannot be changed

WE WANT EVERYONE TO TRY

BUG-DUST-O-CIDE

It's easier to protect your plants from a wide variety of both sucking and chewing insects with Bug-Dust-O-Cide. It controls aphids, bean beetles, flea beetles, leaf hopper, cabbage worms, cucumber beetles, potato beetles and certain other insects. Checks fungus diseases, mildew and black spot. As the supply is limited, the government requests that you use it only on vegetables and fruit plants, anything that produces food.

PRICES

Postpaid in Iowa, Kansas, Missouri and Nebraska. All other states add 3c per pound for postage.

6K25 2½ Pounds Bug-Dust-O-Cide & Duster	\$1.00
6K33 3 Pounds Bug-Dust-O-Cide	1.00
6K50 5 Pounds Bug-Dust-O-Cide	1.60
6K55 5½ Pounds Bug-Dust-O-Cide & Duster	1.90
6K100 10 Pounds Bug-Dust-O-Cide	3.00
6K250 25 Pounds Bug-Dust-O-Cide	7.00

1. NON-POISONOUS TO HUMANS AND DOMESTIC ANIMALS WHEN USED AS DIRECTED.
2. MULTI-PURPOSE—Has a triple action on certain insects—as a stomach poison, a contact poison and as a repellent.
3. EFFECTIVE—Satisfied users everywhere recommend Bug-Dust-O-Cide.
4. EASY-TO-USE—ready to apply—no mixing, no fuss or bother

6K25 SPECIAL OFFER

2½ Lbs. Bug-Dust-O-Cide and Duster \$1.00, Postpaid

The duster is a sturdy fiber container, easily operated by pumping stroke, as illustrated. Holds one full pound of dust which eliminates constant refilling.

America's Finest New Mums

P28 Robert Brydon—Originated by Prof. Kraus of the University of Chicago. Pictured above in full bloom, this is the finest red Mum we have ever seen. Makes a bushy, spreading plant 18 inches tall that is completely covered with hundreds of the deep crimson flowers. It blooms from late summer to freezing. We have found it entirely hardy. Postpaid.

Each 75c 3 for \$1.75 6 for \$2.85

You can dig any of these Mums, even in full bloom, put in a large flower pot, water freely and keep them blooming in the house for weeks.

6P15 1 Each of All 3 for \$1.50 Postpaid

Red Gold

Chippewa

P24 Chippewa—This magnificent new Mum was produced by Prof. Longley of the University of Minnesota. It is an entirely new color in hardy Mums. The purple flowers are large and last for weeks when cut. Makes a well-branched, vigorous plant 24 inches tall that is simply loaded with the lovely flowers from early September to freezing. Perfectly hardy. Postpaid.

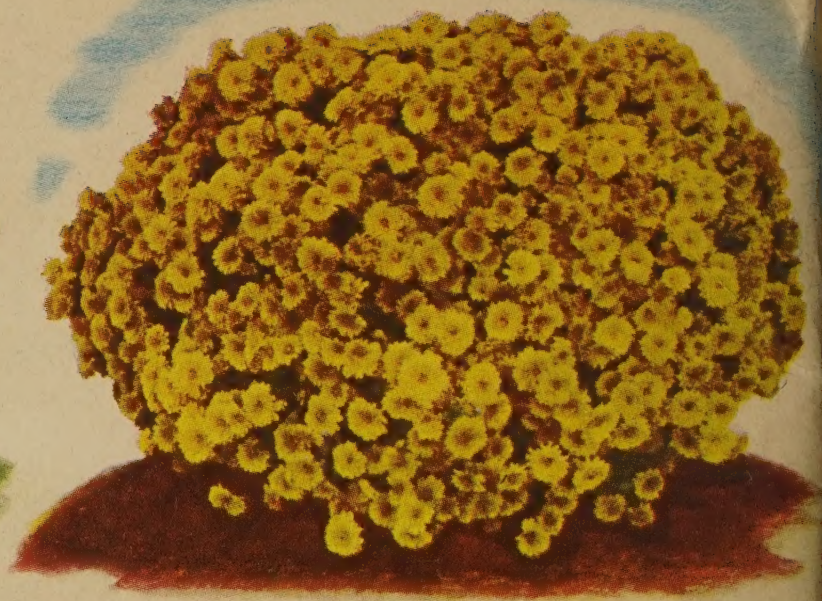

Each 60c 3 for \$1.50 6 for \$2.50

P27 Red Gold—Another of Prof. Longley's new Mums. Although bred for rugged Minnesota, it is proving a sensation in other states. The color is a brilliant blend of red, orange and gold. It makes a sturdy plant about 2 feet tall and starts blooming in early September. Postpaid.

Each 60c 3 for \$1.50 6 for \$2.50

P16 Bronze Cushion—A grand sight with its rich fall colors of gold, orange, copper and bronze.

P20 Yellow Cushion—Great masses of gleaming yellow. Outstanding in the garden and fine for cutting.

THE 5 FAMOUS *Cushion Mums*

The Cushion Mums pictured here in natural color cannot begin to show you the exquisite beauty and loveliness of the **BUSHELS OF BLOOMS** these plants produce from late summer until late fall. They grow about 2 feet tall and 2 to 3 feet wide, perfectly hardy, come up year after year and are so easy to grow. It is almost unbelievable the many hundreds of blooms these plants produce. You can pick bouquet after bouquet after all other flowers are gone. The flowers are much larger than pictured. Our plants will bloom this season.

Your Choice, Alike or Assorted, Postpaid

6 for \$2.15 3 for \$1.25 Each 50c

6P21 All 5 (1 of each) for \$1.75 Postpaid

P18 Red Cushion—None other like it. The glowing mahogany-red flowers cover the plant for weeks.

P17 Pink Cushion—The original Cushion Mum with many hundreds of lovely pink flowers produced freely.

P19 White Cushion—Pure white with a warm ivory center, giving a balanced color effect with fall flowers.
